Baltimore Inundated by
Highest Tide of 20
Years

The season's first touch of wintry
weather was general today east of the
Mississippi. Shifting gales, which
whipped the middle Atlantic coast
and the lake region, had hooted their
way to sea, leaving crisp, cool air be-
hind and promises of light snow in
some sections. General frosts today
lashed the South Atlantic regions as
far down as Florida, and there was
freezing weather through the Missis-
sippi and Ohio valleys.

BALTIMORE, Md., Oct. 21.—The
eastern shore of Maryland was visited
by a furious storm of wind and rain
last night and practically every town
along the shore suffered severe
damage from high water, the tide
being the highest experienced in 20
years. In many places the water
covered the streets from 12 inches to
five feet in depth.

A new \$20,000 concrete building
near Easton was carried away and
the Metropolitan Life Insurance Com-
pany's building in Easton caught fire
and was burned, with a loss of about
\$5000.

MAYOR CONSIDERS
LIQUOR ORDINANCE

Holds Conference With
City Commissioners
at Session

Mayor Mott and the City Commis-
sioners met in executive session this
evening to consider the liquor ordinance
amendments, and tomorrow will be
able to take the public hearing on it.
The ordinance, which was introduced
before the council, whether the
public hearing will be resumed tomor-
row depends upon the success of the
commissioners this afternoon in reach-
ing some basis of agreement on the proposed
changes.

The following petition for the reduc-
tion of the number of saloons was filed
with the city council today:
October 19, 1913.
To the Honorable City Council,
City of Oakland.
Gentlemen:—The congregation as-
sembled in Brooklyn Protestant church
by unanimous vote, requested the
Men's Organization of said church
to prepare and forward to your hon-
orable body a resolution, the amend-
ment action be taken looking to the
closing of certain disreputable cafes
and a reduction in the number of sa-
loons.

In accordance with the above re-
quest the Men's Organization met and
passed unanimously the following
resolution:
Whereas many organizations of
citizens of this city have requested
that the licenses of certain disrepu-
table cafes should be revoked for
cause, and the number of saloons
materially lessened, and

definite action has not been taken
in the premises, now therefore be it
Resolved, That the city council be
urged to take immediate action to re-
voke such licenses, and also take
such steps as will reduce the num-
ber of saloons as soon as possible.
Respectfully,
ALEXANDER GRANGER,
COMMISSIONERS ENDORSE TURNER.
The commissioners today endorsed
Commissioner of Public Health and Sa-
fety Turner's stand for the revocation of

and Wood streets, when Chief of Police
Peterson produced a formal agreement
showing that the property was owned in
part by Sam Mounielakis, a Greek, who
is not a citizen, and that Louis Regan
owns the license stands, swore
to the ground that the saloon
keeper had leased part of the premises
to a Greek for gambling purposes. The
matter was the subject of a bitter
struggle in the recent past.

ISHY-LES-MOULINEAUX,
France, Oct. 21.—The longest aeo-
plane flight ever attempted was
started from here today by Pierre
Dancourt, accompanied by Henry
Roux as a passenger.
Dancourt departed on the way to
Cairo, Egypt, a distance of 3348
miles. Stops are planned at Schaf-
hausen, Germany; Vienna, Buda-
pest, Belgrade, Bucharest, Varna,
on the Black sea, Constantinople
and at various cities in Asia Minor,
including Jerusalem. The flight is
to be concluded by way of Port
Said and the Egyptian cape.

LAND OFFER
PLEASES
MAYOR

Trestle Glen and Red-
wood Peak in
Parcels

Acquisition by the city of a chain
of parks containing by all 329 acres
of the choicest parcels of land from
Trestle Glen to Redwood Peak and
involving an expenditure of approx-
imately \$250,000, has been the sub-
ject of a number of conferences be-
tween city officials and the F. M.
Smith committee, to make the pur-
chase from the Realty Syndicate.
Part of the land involved is to be
purchased from F. C. Havens.
The announcement of the plan to
acquire the parks was made by Mayor
Frank K. Mott this morning after a
consultation with Park Commissioner
Walter G. Manuel. Manuel has been
working on the project for several
weeks and has obtained options on
the land to be acquired. It is de-
clared that the prices at which the
land will be offered the city are ex-
ceedingly attractive.

SMALL PAYMENTS REQUIRED.
The land can be obtained by mak-
ing a small initial payment under an
agreement to pay the balance with
interest in six annual payments or to
take up the land next year by the
payment of a bond issue.
Mayor Mott announced today that
he believed the project to be one of
the most important that the city had
proposed for several years and de-
clared that if the citizens and the
public bodies indicated their approval
of the proposition, the city council
would give to the city board of park
directors the necessary authorization
to go ahead and make the initial pay-
ment.

Sufficient funds are on hand in the
treasury in the park fund to make the
first payment. Mayor Mott stated to-
day that he believed that the voters
would back the proposition but that

KANSAS CITY, Oct. 21.—Important
reports to be presented to the National
Council of Congregational Churches,
which will begin its triennial convention
here today, is that of the committee on
temperance appointed three years ago
to draw up a statement of the church's
attitude on the liquor question. Mem-
bers of the committee, while refusing to
give out the report, declared it contained
a number of drastic suggestions that
placed the church at the head of a
National movement to eliminate the
liquor traffic.

Woman With Infant Is
Heroine in Second
Blaze

Children playing with matches caused a
fire last evening which trapped their
mother, Mrs. Eugene Formichi, 41 and in
bed, in her room, 1095 Fort-fifth avenue.
The children ran screaming into the
street and then returned and made a
desperate effort to save their mother
from the threatening flames.

Neighbors heard the cries of the
frightened children and rushed to the
rescue. A fire alarm was sent in. Guided
by one of the children the rescuers found
their way to Mrs. Formichi's room, where
the fire was already eating its way in
little tongues of flame around the door
casing and carried the helpless woman
to safety. She was cared for in the home
of neighbors.

The fire department was summoned,
but the fire gained such headway that it
was impossible to save the cottage. The
place was a total loss and none of the
furniture was saved. The fire caused
about \$4000 damage.

With her year-old infant in her arms,
Mrs. M. J. Caslin, 1125 Willow street,
fought her way through smoke and
flames, when a fire occurred in her home
about 10 o'clock last night. Mrs. Caslin
was trapped with her child in the bed-
room of her home, the fire having started
in rooms between the bedroom and the
front doorway of the house.

Hastily wrapping the child in several
blankets, Mrs. Caslin held the bundle
close against her body and made her way
through suffocating smoke, to the street,
where she collapsed. Neighbors came to
her assistance.

Passersby had already discovered the
fire and an alarm was turned in. The
flames had spread to the attic above, but
the damage to the house and furniture
was nominal.

CLUBMAN'S WIFE
SEEKS DIVORCE

Washington Irving,
Relative of Author,
Is Named

Washington Irving, wealthy clubman
and insurance broker of San Francisco,
who lives in the exclusive residence dis-
trict of Berkeley, at 2249 Piedmont ave-
nue, was sued for divorce today by his
wife, Isabella Rhea, the complaint being
placed on the secret file. The attorney
representing Mrs. Irving obtained a re-
straining order from Superior Judge Wells
preventing the husband from disposing of his large interests pend-
ing settlement of the divorce.

According to Attorney Jesse Robinson,
appearing for the plaintiff, Washington
Irving is "a great-grandson" of the crea-
tor of Rip Van Winkle, although history
relates that the hand of Sleepy Hollow
was a bachelor.
Irving defendant to the present action,
is general agent for the Phoenix Assur-
ance Company Ltd. of London with ap-
proximately \$1,000,000 in assets.

He is widely known in insurance
circles and maintains a luxurious home in
Berkeley.
The couple have been married more
than 20 years. They have a daughter 20
years of age.
Mrs. Irving has separated from her hus-
band and is stopping at the Lakeside
Apartments in Oakland. Irving recently
returned from an extensive trip to Europe.

Chinese Plays Country-

ALAMEDA, Oct. 21.—When Goy Soon
Lai of Alameda, one of the social leaders
of the Chinese quarter, betthought himself
that he was arriving at that time of life
when a bride would be of social and do-
mestic assistance to him, his thoughts
reverted to the days of his childhood
when he played in the poppy fields with

PORTOLA VISITORS

SAN FRANCISCO, Oct. 21.—San Fran-
cisco's Portola visitors are pouring in.
The estimate is made this morning that
close to 100,000 persons, if not more, have
already arrived for the four days of fes-
tivities, which begin tomorrow. Between
400,000 and 500,000 is a conservative es-
timate put on the crowds that will sack

SAN FRANCISCO, Oct. 21.—Lean-
ing for support upon her mother,
Leah Alexander, who shot and killed
J. D. Van Baalen, advertising ac-
cettor, in his office in the Chronicle
building on Saturday, appeared be-
fore Police Judge Sullivan this morn-
ing. The courtroom was crowded and
all eyes were upon the slender young
woman whose face was haggard and
drawn as the result of a night of
weeping and anxiety.

The proceedings were brief. A
number of social workers surrounded
Miss Alexander and the brief formal-
ity of instructing and straining her
was quickly accomplished. The
court, Attorney Thomas Doster is to
be her leading counsel. No objection
was made to a continuance to next
Tuesday, when the date for the pre-
liminary examination will be set.

A surprise was sprung immediately
after the arraignment of Miss Alexan-
der when Prosecuting Attorney
Roche informed the court that he
had information that Miss Rhoda
Thompson, who witnessed the shoot-
ing and to whom Van Baalen had
paid some attention, was about to

be ordered into custody pending the
taking of her testimony. Miss Thomp-
son protested that she was not going
to leave the city and Attorney Doster
fought against her detention. The
court, however, ordered that she be
held.
Miss Thompson was taken before
Chief of Police White, promised him
that she would stay in the city and
was allowed to go.

REWARD OF

Berkeley Young Man Is
Missing; Arsenic in
Home

Strange Disappearance
Places Police Detec-
tives at Sea

BERKELEY, Oct. 21.—On
the verge of collapse as
a result of the mysteri-
ous disappearance of her
son and the finding of poison
the next morning scattered
through her residence, Mrs.
Richard Flint of 1251 Euclid
avenue today offered a reward
of \$1000 for the finding of the
young man. The reward, she
declared, was unconditional. No
questions would be asked of the
finder.

Still wrapped in blackest mystery is the
disappearance of the young man Richard
S. Flint. The police are attempting to-
day to answer the following questions:
Where did Richard Flint go at 12:30
o'clock Monday morning, when he left
the home of his sweetheart, Elma
Butterworth, in the Richmond district
in San Francisco?
Was it Richard Flint or someone
else who entered the Flint residence
in the early hours of Monday morning
while the family lay asleep?
What person scattered several ounces
of arsenic through the residence of
Flint's mother at 1251 Euclid avenue?
Why was the arsenic scattered in
such a manner that it could not pos-
sibly be overlooked by members of the
Flint family?
Was some of the arsenic acci-
dentally swallowed by young Flint
himself?

PLANNED BUSINESS.
Flint had made all arrangements neces-
sary to opening yesterday morning a gro-
cery store on the corner of the street, near Oxford,
in the Flints building. He had secured a
lease of the store room, purchased much
of his stock and cleaned up the store.
He was very optimistic about the possible
success of his venture and had talked it
all over with his mother and three sisters,
with whom he lived and who helped him
in his plans.

For some time Flint, who is 24 years
of age, had been paying attentions to
Miss Elma Butterworth, 246 Sixth avenue,
Richmond district, San Francisco. F. C.
Butterworth, the young lady's father, is
also a grocerman, with whom Flint had
been associated in a business way.
Sunday afternoon the young man left
his home in this city to visit Miss But-
terworth. He arrived at her home early
in the evening. He was in good spirits
during the time he spent with her, ac-
cording to the story she tells the Ber-
keley detectives. He left her home at
about 12:30 a. m., declaring he intended
catching the 1 o'clock ferry for the city,
as he must arise early the next morning
to be promptly at his new place of busi-
ness.

DON'T REACH HOME.
He never reached home. Mrs. Flint,
supposing he had returned in the night,
went to arouse him at 6 o'clock, as he
had promised. She found her son's bed
empty. Growing alarmed, she reported
his disappearance to the police later in
the forenoon. She gave them a descrip-
tion of the young man. A detective was
detached on the case.
Before he reached the Flint residence,
Mrs. Flint and her daughters had made
a startling discovery. Scattered through
the house, from one end to the other,
was a quantity of white powder. Later
analysis proved it to be arsenic.
The poison had been placed with a singu-
lar disregard to whether it was dis-
covered.

ARCHBISHOP NOT

While His Grace Is Very
Weak His Health

SAN FRANCISCO, Oct. 21.—Archbishop
Patrick W. Riordan has been very ill
at his home, Fulton and Steiner streets,
for several weeks, and two physicians
have been in almost constant atten-
dance. This morning it was announced
that he would be able to be up and
around again in a few days. The arch-
bishop has been causing grave anxiety,
and has been better than for a long time.
He is an old man and has several minor
troubles have caused to weaken him.
One of the physicians attending the
archbishop said this morning that he
thought it only a question of a day or
two before the patient would be up and
about again, but admitted that he was
not sure.

Watch Carefully the Child's Diet

1 Them Off Right With a
Good Laxative and Then
Watch Their Food.

Mothers are often unconsciously
careless about the diet of their
children, forcing all to eat the same
food. The fact is that all foods do
not agree alike with different persons.
Some avoid what seems to consti-
pate or to give it indigestion,
and urge it to take more of what
quickly digested.

If the child shows a tendency to
constipation it should immediately be
treated with a mild laxative to help the
bowels.

By this is not meant a physic or
cathartic, for these should never be
used on children, nor anything like
pills, etc. What the child re-
quires is simply a small dose of the
active of medicine, such as Dr.
Caldwell's Syrup Pepsin, which, in

None of this poison was noticed any-
where in the house at the time Flint
left for San Francisco. The Flints, moth-
er and daughter, had been away from
home during the afternoon for a short
time. They had recently moved into
the Euclid avenue residence which is
about 100 yards from the People's Water
company reservoir and in a part of the city
not yet thickly settled.

Apparently went west from his house
to that of Miss Butternorth, according
to the time of his arrival at the latter
place given by the young woman. Miss
Flint and the Misses Flint did not leave
their house until a considerable time
after his departure.

Neither Mrs. Flint nor any of her
daughters is able to throw the slightest
light upon the mystery. Flint had been
for days in the best of spirits. There
had been no unpleasantness between him
and the other members of his family.
All had been intensely interested in his
business venture and had planned to-
gether how it should be conducted. The
young man had but a small amount of
money on his person when he went to
San Francisco so that the theory of
robbery is believed untenable.

The police are at sea in the matter.
Detective Sergeant Henry Jamison and
A. S. Woods and Inspector D. H. Fraser
have been detailed on the case. They
have learned many interesting facts in
connection with the case.

WHO ENTERED HOUSE?
Of chief importance is the fact that
someone either young Flint or another
person entered the house sometime after
the Flints had returned Sunday night
and before they arose Monday morning.
The Flints have been accustomed to leav-
ing their front door key in a some-
what conspicuous place on the front
veranda. It was so left Sunday night
and a light was left in the hall inside
Monday forenoon Miss Margaret Flint,
one of the daughters, found the key in
the lock of the front door where it
had been used to unlock the door and
left in its place afterwards instead of
being removed. Mrs. Flint remembers
no other case in which her son was
guilty of a similar carelessness. The
track of the arsenic shows that some-
one distributed it made a round of the
whole house. The traces of the deadly
white powder begin in the pantry, lead
through the kitchen and the dining room
and up stairs to the chamber in which
young Flint himself occupied. There it
had been scattered about the table and
floor.

IN SIX PARCELS.

The land involved is included in six parcels, but larger groups these parcels of land fall into the following parcels:

Upper part of Indian gulch, or upper Sather tract, 90 acres, from Realty Syndicate.

At head of Diamond canyon, 57 acres, from Syndicate.

Between Diamond and Redwood peak, 142 acres, from Syndicate.

On Redwood peak, 50 acres, from F. C. Havens.

Part of this land the city attempted to acquire by a bond issue in the time of Mayor Olney, but circumstances surrounding the deal resulted in the public refusing to vote the bond issue. The land is a "good buy" according to realty experts, as Wickham Havens recently purchased about 160 acres at \$3000 an acre, while the price quoted to the city for same acquisition but further up the hillside is under \$500 an acre.

Every day we are finding out more surely that this city of Oakland is a city of Boosters but since we have begun advertising that we sell \$25.00 Suits and Overcoats for \$15.00 every day in the year, the little knock, knock, knock, of the disgruntled or dissatisfied has been reaching our ears from some few sources.

THEY CAN'T DO IT. That is one of the remarks we are told some people are making regarding our claim to give perfect fitting, permanently satisfactory \$25.00 Suits and Overcoats at \$15. THE BEST PROOF OF THE PUDDING HAS ALWAYS BEEN RECOGNIZED TO BE IN THE EATING. No big success has ever been built upon a failure to make good. The fact that we ARE making good, the fact that we ARE successful, the fact that we have on this very basis grown to be the largest exclusive clothiers in the world—We consider that fact the best answer to those who say that we cannot do it. We consider that fact the best proof that WE ALWAYS HAVE DONE IT.

TO TEACH GIRLS DOMESTIC SCIENCE

The New Oakland Commercial
High School Will Have
Modern Feature.

Someone has said that "the female sex is growing stronger instead of weaker," hearing the statement upon the fact that women are taking their places in the marts of trade, and have been given the ballot. This may or may not be true, but the significance may be observed, however, and in order that the girl may lose sight of these strong appeals from the other world, the schools of the country are installing along with the regular courses a Domestic Science course, or as it will be known in the Oakland Commercial High School now being erected, a course in "How to care for a home." A modern apartment is to be built into one of the wings of the main building to accommodate this feature, the apartment to consist of a living room, dining room, bedroom, kitchen and bath; in fact, a modern home. Two girls will be placed in charge of this apartment each week and will be taught everything from dusting and sweeping to the preparation of luncheons and teas. These girls will entertain classmates at afternoon receptions and be instructed in the art of being hostesses at these social functions. This course is designed to instill into the heart of our girls a love of the home and how to create and maintain it, the contrast of

the home woman against the business woman being strongly and wonderfully shown even in the school room.

In the domestic science department there will also be a big kitchen and dining room, where elementary and advanced cooking will be taught, and it is also planned not to alone teach girls the culinary art but to give courses for boys so that those who wish to become chefs may have a full opportunity to learn of the academic proportions of savory herbs entering into a sauce or gravy and the food values of various cereals and meats.

SOUTH AFRICA AS NEW SOURCE OF MEAT SUPPLY

LONDON, Oct. 21.—South Africa is proposed as a new source of meat supply for England, according to the Evening News. No details of the project are announced, but it is declared that the Chartered Company, a corporation formerly headed by the late Cecil Rhodes, and owner of diamond fields and vast acreages in the district known as Rhodesia, proposes to start the cattle raising industry. It is estimated that by way of the Mediterranean supplies of meat could be got to Europe seven days quicker than from the Argentine republic.

Richard Walsh of Texas is reported to be now on his way to America to engage assistance to conduct the ranches along modern American lines. Sir L. Starr Jameson, one of the present heads of the Chartered Company, is now on his way to Rhodesia, where it is said the American "beef trust" interests are to be represented in plans for the cattle raising scheme.

SHRIEKS OF SIRENS WILL BE SOFTENED

WASHINGTON, Oct. 21.—Representative Kahn yesterday received notice from the bureau of lighthouses that the siren on the north side of Alcatraz island is now being muffled and that the siren on the south side of the island will be muffled on October 25.

This will enable residents on the nearby mainland, who have complained bitterly of the shrieking sirens, to hereafter sleep in peace.

Action by the lighthouse bureau to stop the hideous noise was not obtained, despite repeated complaints, until Kahn threatened to introduce a bill to have the sirens removed.

Representative Kahn returned here today from Louisville, Ky., where last Saturday he addressed a great Republican rally. He was given a rising vote of thanks for his speech and received an ovation.

ALBERT OF MONACO SEES EXUBERANCE IN AMERICA

WASHINGTON, Oct. 21.—Prince Albert of Monaco told the National Press club last night that this country was magnificent, "but it was young and had all the exuberance of youth." He added that the thing that most impressed him was the universal desire for learning on the part of all classes. Earlier in the night he delivered an address before the National Academy of Sciences.

AAHMES PATROL TRAVELS SOUTH

Many Bid Shriners Farewell as
They Start for the
Big Tour.

The band and Arab patrol of Aahmes, temple, Nobles of the Mystic Shrine, were speeded on their way to Santa Barbara by hundreds of nobles and their ladies, with the waving of flags and the beating of drums. The great "Hands-Around-the-State" concert tour opened at Santa Barbara this afternoon, and the Aahmes patrol will return to Oakland Saturday morning, when four concerts, which promise to be the most successful of their kind ever given in the eastbay section, will be held at Idora park on Saturday and Sunday afternoons and evenings. The four massed bands, consisting of 120 splendid musicians, and the four patrols containing an equal number, resplendent in their richly brocaded blue and gold, silk and satin uniforms will parade in the principal streets, beginning at 11 o'clock Saturday morning.

The Aahmes temple nobles have organized a boosting and ticket selling committee which is making the most strenuous campaign of its kind ever held in the eastbay region.

George S. Meredith, chairman of the committee, and J. R. D. Mackenzie, secretary, have enlisted every noble in the district in the work and many of the Shrine ladies are co-operating, among them Mrs. W. T. Piddwell, who will sell copies of "I Love You, California," the official song of the great state tour, at the concert.

Meredith said today that the tour was the greatest project in the history of Shrinism.

"We are actuated by unselfish and purely patriotic motives," Meredith said today. "The combined bands and patrols of the four temples of the state, Aahmes, Islam, Al Bahr and Al Malakiah will give a concert tour of the principal cities of the state. Fourteen cities will be visited. The four patrols will accompany the combined bands on this tour and it is proposed to show the people of California that there is no north and no south, but just one big, happy, sunny California."

The proceeds from the tour will be used in advertising the state in the largest eastern cities and the Imperial Council session of the Shriners at Atlanta, Ga., next May.

George Bennett is leader of the combined bands, consisting of 120 musicians, the biggest band that ever went on tour. Mrs. Margaret Davis-Hughes has been chosen as the accompanist. Some of the highest priced soloists in the west will make the tour.

INDIANAPOLIS, Ind., Oct. 21.—Governor Samuel M. Ralston, in a communication issued yesterday, requests that the residents of Indiana eat at least one apple each day, which he has named apple day in Indiana.

The governor's request was made in an open letter to Edward R. Smith, president of the Indiana Apple Show commission.

"There has been in the past too much neglect of the orchards, not only in Indiana, but elsewhere," wrote the governor. "This indifference has cost our state and country a vast sum, both in the loss of apples and orchards in many cases."

"I heartily approve your suggestion that tomorrow, the third Tuesday in October, be observed as apple day and that each person in the state should eat at least one apple on that day, in accordance with the tradition that 'an apple each day keeps the doctor away.'"

Woodland was brought into the game at a time when Scott Hendricks, who was pitching for the Bohemians, was being knocked out of the box, and he promptly turned the tide in favor of Bohemia. Not only so, but in the next inning he won the title of "Home Run" Woodland. At a time when the bases were full of eager Bohemians he knocked a

Who the Bohemians will put in the box on November 1 is still a deep, dark mystery; but, at any rate, it won't be Woodland; and, just as certainly, it won't be Scott Hendricks. Riley Hardin has been proposed, but it still is uncertain if he will consent to pitch.

OREGON WELFARE MEET FIRST HELD IN STATE

PORTLAND, Ore., Oct. 21.—The first statewide industrial welfare conference called by the new Oregon Industrial Welfare Commission held its opening sessions here last night.

The conference is composed of three representatives, each of wage-earners, employers and the public, and a research committee of three members was appointed from this membership.

It will be the business of the conference to inquire into the wages, hours and conditions of labor of women and minor workers throughout Oregon, to determine what constitutes reasonable hours, wages and conditions, and to make recommendations based on its findings to the Industrial Welfare Commission, which, in its legislative capacity, enacts laws governing these matters.

PIEDMONT TO HOLD BOND
ELECTION TO BUY PARKS

PIEDMONT, Oct. 21.—At a meeting of the town trustees last night it was decided that a bond election of \$50,000 to acquire Oracina, Linda and Blair parks should be held on a date to be decided upon at the next meeting of the trustees.

Oracina and Linda will appear on the ballot as one unit of \$20,000, while Blair Park will appear as \$40,000. It was decided that the proposition to purchase Piedmont park for \$115,000 was not necessary, and the proposition was turned down on the recommendation of the city attorney, who declared that "Piedmont Park is not a public necessity, as the law provided such things should be."

HONEST ADVERTISING

FOR the past two or three years far-sighted merchants and advertising men bound together under the title of Ad Clubs, have been working for the advancement of advertising and for the suppression of the "Advertising Fakery." Honesty in advertising is not only the best policy, but it is the ONLY policy upon which a LASTING business can be built. Truth—simple honesty in advertising means confidence—and confidence is the life of business.

Since the hour this store first opened its doors in Oakland we have maintained a standard of Honest Advertising as well as honest merchandising.

The women who read our advertisements KNOW that every item is exactly what we claim for it. That every value is exactly as stated and that every garment will measure up to the printed word.

Rub Backache Away With a Small Trial Bottle of "St. Jacobs Oil."

Kidneys cause Backache? No! They have no nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is St. Jacobs Oil. It is a soothing, penetrating "St. Jacobs Oil" that it rubs on the ache or tender spot, and instantly the pain, soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Oil" from your druggist and rub it on. A moment after it is applied you'll wonder what became of the backache, sciatica or lumbago pain. "St. Jacobs Oil" is harmless and doesn't burn the skin. It's the only application to rub on a weak, lame or painful back, or for lumbago, sciatica, neuritis, rheumatism, sprains or a strain.

CAN DRYDOCK BE BUILT WITH APPROPRIATION?

WASHINGTON, Oct. 21.—The fate of the big naval drydock at Pearl Harbor, Hawaii, will depend upon the disposition which Secretary Daniels makes of the recommendation submitted to him by Alfred M. Noble, the engineering expert who has been in charge of the proposed methods for its completion. A question whether the proposed change to plan of construction found necessary can be carried out within the existing appropriation may have to be submitted to Congress. Another question to be determined is whether the contractor or the government must meet the additional expense involved in the change of plan.

Charge of Snobbery in Navy Refuted by Former Sailor

WASHINGTON, Oct. 21.—In refutation of charges of snobbery in the navy, Secretary Daniels today made public a letter addressed to him by a former enlisted man who in 1904 was promoted to the commission rank and is now a lieutenant. The officer declares he "has not been discriminated against socially or otherwise, but to the contrary, was made to feel that there was absolutely no distinction between the graduates of the naval academy and myself; moreover, this experience is common to all officers who were promoted from warrant officers and with whom I have spoken in regard to the subject."

SHOPS PLANNED FOR PRISON AT FOLSOM

SACRAMENTO, Oct. 20.—Folsom Prison in the near future will be a manufacturing prison similar to San Quentin, for the State Board of Prisoners will work out the details of such a plan with Governor Johnson immediately after the governor's return from the east. The state legislature appropriated \$33,000 at its last session for the erection of shop buildings at the prison, and this money will be utilized for the erecting of buildings and buying machinery. It has not yet been determined what articles will be manufactured by the prisoners, but will be worked out so that San Quentin and Folsom will not duplicate the work of one another.

DEMOCRATS BEAT THE ILLINOIS PROGRESSIVES

PEORIA (Ill.), Oct. 21.—In a fiercely contested judicial election, Charles C. Craig, Democrat of Galesburg, was elected yesterday to the Illinois Supreme bench, to succeed Judge John P. Hand, by a majority of 840 over Judge Leslie D. Puterbaugh, Republican. Arthur E. Shaw, the Progressive candidate, ran nearly 5000 votes behind the Republican candidate.

The election showed Democratic gains. Of the ten counties in the district the Democrats carried six, the Republicans three and the Progressives one.

'MAINTAIN U. S. FOREIGN TRADE'

Redfield Says That Nation Is Leader in Manufacturers Exports.

No Longer Known as a Food Producing Country, Says Secretary.

DETROIT, Mich., Oct. 21.—With the declaration that the "Hill of American business in the foreign field is at its

maintain it, Secretary Redfield, addressing the Board of Commerce here last night, made a direct appeal to business men to ask Congress to appropriate more funds for the prosecution of the work of his department.

The secretary explained his proposed reform of commercial representation abroad, through the appointment of a corps of special agents and supervision of the commercial activities of the various consuls.

Redfield said the government has an ambitious program of investigation and trade furtherance. He said it was the intention of the government to place it rigorously "if funds were provided."

"For example," said he, "at this present moment the inquiry into the pottery industry, which is a very important and intended to be a very helpful investigation, is almost at a standstill for lack of funds."

EXPORT MANUFACTURES NOW.

"I assume you are aware of the great advance of American export trade in manufactures during the last year. Time was, within the memory of most of you, when we sold abroad chiefly the products of our fields and farms or of our mines. We were known as a food-exporting country, and in a sense did largely feed the nations. That day is gone. Our exports of crude foodstuffs are but 13 per cent of the total and the major place in our export trade is filled by the products of our manufactures."

"To sell our manufactures abroad to the extent of over fifteen hundred millions in value in one year is no small thing, but when this continues to expand at the approximate rate of half a million dollars daily, and when in this total the largest item by far is that of fully finished manufactures, which is not only, as I have said, the biggest item, but that which is growing fastest, then the statement is very much more marked."

In concluding the secretary told his hearers that if the funds were forthcoming he proposed to reorganize the Bureau of Corporations so that a systematic inquiry into all big combinations could be made. This he said would not be undertaken in any inimical spirit but solely for the purpose of securing information which he believed the government should have.

COMMISSIONER TO STUDY CULTIVATION OF DATES

WASHINGTON, Oct. 21.—Believing that the date industry can be made profitable in this country, the Southwest, being adapted to the growth of the fruit, Secretary Houston has instructed Walter T. Swingle, of the bureau of plant industry, to proceed to Africa to study the fruit growing there. Some investigation of the question already has been made by the department, but the secretary is anxious to discover what are the best possible varieties of dates for the United States.

PRINCETON FRESHMEN MUST NOW GO THIRSTY

PRINCETON, N. J., Oct. 21.—The death knell of that historic old phrase, "Now have one on me" has been sounded among the students here because of the strong agitation that has been aroused against "treating."

The university authorities have also taken steps to restrict drinking among the students, and as a result of their activity, it is practically impossible for freshmen to purchase drinkables in any of the town saloons.

WANT TRACTION COMPANY TO CONSTRUCT LINE

SAN LORENZO, Oct. 21.—Visitors to the county infirmary have raised complaints from time to time of the long distance they have to walk from the electric cars and the traction company has been asked to construct a line from East Fourteenth street to the infirmary, which is over half a mile off the road. With the growth of this district passenger would soon be found in sufficient numbers to warrant the company taking this step. At present the walk from the infirmary to the nearest street car is a winter time, considerably faster pedestrians, especially old people, who comprise the large majority of infirmary visitors.

ORDER OF MOOSE LODGE OBSERVES ANNIVERSARY

FRUITVALE, Oct. 21.—The first anniversary of Fruitvale Lodge, No. 1152, Order of Moose, was celebrated at a banquet held last night in Carpenters' hall. Director A. Harker presided over the evening's dinner, while Captain Thos. Brown was toastmaster. Local Moosemen honored the occasion by turning out in full strength and the banquet was one of the most successful held by the lodge. The program consisted of music and speeches by officers and members. Although only a year old, Fruitvale lodge of Moose has a membership of 700.

MRS. E. M. BIRCHENALL OF SAN LEANDRO DEAD

SAN LEANDRO, Oct. 21.—Mrs. Elizabeth Mary Birchenall, a well-known and highly respected resident of San Leandro, died yesterday at her home on Callen street. Mrs. Birchenall was 68 years of age, was a native of Ireland and had been in California for 23 years. She is survived by her widower, John Birchenall, and four children, Edward J., George, Arthur and Bessie E. Birchenall. Mrs. Birchenall is clerk in the First National bank of San Leandro. Conna and Capogrosso have charge of the funeral arrangements.

ACCUSED PAYMASTER RELEASED ON BONDS

SAN LEANDRO, Oct. 21.—August Restahllo, paymaster at the local cannery of the California Fruit Cannery's Association, against whom a charge of grand larceny has been brought, has been released in bonds of \$2000. The bonds were put up by M. S. Rego and J. S. Bettencourt. Restahllo is alleged to have appropriated sums of money belonging to the Cannery's Association to his own use.

A Neglected Cold Often Affects the Lungs

Many serious cases of Throat or Lung Trouble can be directly traced to a cough or cold which has been neglected. If you notice that a cough persists in you, or if you take warning. If you neglect trying to stop this supposed trivial trouble the throat and lungs later become affected in many cases Eckman's Alternative is the means of bringing permanent relief. Investigate this case:

"Gentlemen: For five or six years I was troubled with cough and expectoration. I also had a high fever. My case was declared Lung Trouble by my physician. I was given Cod Liver Oil, Creosote and other medicines, all without benefit. At Christmas time, 1928, I was not expected to live. Calling Dr. R. H. McCarty, he advised the use of Eckman's Alternative. I got out in all weathers and have had no cough or cold whatever. It is a great fact to encourage others to use Eckman's Alternative."

JAS. W. KANALE.

Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stomach Colic and innumerable other ailments. Contains no narcotics, poisons or habit-forming drugs. Sold by The Owl Drug Co., and leading druggists. Write the Eckman Laboratories, Philadelphia, for literature, telling of successes and additional evidence.

Rev. Thompson to Prove He Can Bake Cakes and Pies

HAYWARD, Oct. 21.—Because the women of the church doubted the minister was good as a chef, Rev. Irving E. Thompson will give an exhibition of his culinary skill. He has taken up the challenge and has promised to produce a number of delicacies in the way of cakes and pies of his own making at a meeting of the Ladies Aid Society of the Methodist church next Thursday evening.

Besides acting as proof or otherwise of Rev. Thompson's ability to cook and bake, the delicacies will also serve as refreshments at the meeting and Mrs. A. Harker, who will be hostess, earnestly wishes the minister success in his efforts. But according to Rev. Thompson,

as he can turn out anything from an angel to a devil's cake. Among the members of the Ladies Aid Society who have challenged Rev. Thompson, are Mrs. C. R. King, Mrs. C. P. Van Dyke, Mrs. C. D. Hough, Mrs. C. C. Wright, Mrs. J. W. Dodson and Mrs. J. P. Bashan. The question among the challengers is whether they will benefit more by winning the challenge or by losing it. The only way they can see out of the difficulty is to take a supply of cakes along with them in case they should happen to win.

REPUBLICANS OF MELROSE MEET

Plans for Winter Are Made at Banquet in Clayton Hall.

MELROSE, Oct. 21.—The activities of Melrose Republican club for the fall and winter season commenced last night when a full representation of members and their friends attended a banquet in Clayton hall. Speeches were made by prominent members and a plan of action outlined. The second big gathering of the club will be held in the early part of November, the occasion being a high links party. A committee was appointed to arrange a musical and literary program for this event.

Officers of the Republican club who attended the banquet were: President, T. Mazzotti, Vice-President, D. M. Haggerty, Secretary, Charles A. Calhoun, Treasurer, David Collins, Sergeant-at-Arms, Robert Matthews.

NEW FIRE APPARATUS FOR SAN LEANDRO SERVICE

SAN LEANDRO, Oct. 21.—Discussion of San Leandro's new fire apparatus was the only non-routine subject before the town trustees meeting last night. The trustees are prepared to spend from \$4000 to \$5000 on a fire truck, and bids for the truck were opened up last night. Now that a decision has been arrived at in favor of new fire apparatus, the desire is that there will be no delay in getting a fire truck installed, so that the local department will be able to cope with a possible blaze.

Bids were opened up for the construction of an extension of the storm sewer between Joaquin and Juana avenues, and the work will be commenced as soon as possible in order to have the sewer extension completed before the rains.

RANCHER'S RIBS BROKEN IN FALL FROM WAGON

SAN LEANDRO, Oct. 21.—John Costa, owner of a ranch near the bay in San Leandro, had three ribs broken yesterday when he fell from a wagon. Costa is a heavy man, and besides his injuries was severely shaken up by the fall. He was removed to the office of Dr. Charles Miller, where the broken ribs were set. It is thought he has escaped internal injury. Costa is now in the hospital on the wagon when the machine jolted and was thrown heavily to the ground.

MRS. MARY DOMINGOS OF ELMHURST PASSES AWAY

ELMHURST, Oct. 21.—Mrs. Mary Domingos, a prominent resident of Elmhurst, died at her home, 9615 E. street Sunday night. She had lived in this part of the country twenty-three years and was a native of Portland. Deceased is survived by a husband and one daughter, Mrs. Reis, 2840 Short street.

TO INVESTIGATE SUICIDE OF YOUNG MRS. M. SILVA

ELMHURST, Oct. 21.—The death of Mrs. Mame Silva, an 18-year-old young woman, who took poison last week at her home, 847 Dent street, will be the subject of an inquiry by Coroner Tisdale tomorrow at the office of Deputy Coroner C. N. Cooper. Mrs. Silva swallowed the poison in a fit of despondency caused by the absence of her husband.

ENTIRE FAMILY ILL WITH TYPHOID FEVER

FRUITVALE, Oct. 21.—Illness has visited the home of Rev. Franklin Rhoda, minister of Fruitvale Presbyterian church. Four members of the family are laid up with typhoid fever. Mrs. Rhoda was the first to take ill, and she has been bedridden several days. Her husband has been confined to his bed for several days. It is believed that the illness was caused by drinking water from a well on the property.

UNUSABLE PUNGE USE LIMIT OF BIRDS

SAN LEANDRO, Oct. 21.—Constable M. Borge has given proof of his shooting powers by bagging the limit of quota twice in succession. M. G. Ince, Edward Korny and Albert Bluff, Borge's companions, in a hunt yesterday also secured the limit.

EAT NEW BREAD, CABBAGE, SAUSAGE, AND DIGEST IT—'PAPE'S DIAPEPSIN'

No Indigestion, No Sour, Gassy Stomach or Dyspepsia; Try It!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, let this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. No difference how badly your stomach is disordered, you get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear. Most remedies give you relief sometimes—they are slow, but not rare Diapepsin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

CONFESSES MURDER OF OLD RECLUSE IN 1909

HARPER, Kas., Oct. 21.—Elmer Girard a 41-year-old, 21 years old, confessed yesterday to Donald Muir, county attorney, that his brother, Peter Girard, had murdered a wealthy recluse, in 1909, for the purpose of robbery. The accused had no money, according to Girard, who had previously served a term in the Kansas reformatory for robbing Johnstone of \$1000. The Girards are under arrest here and an officer yesterday went to McComb, Ill., to get Marion, who had been detained there. During a search of the Johnstone home after the crime officers found \$3500 buried in jars, cans and bottles. The murderers had overlooked it.

GRAND JURY PROBES LONG BEACH DISASTER

LOS ANGELES, Oct. 21.—The Long Beach pier disaster on Emery day, May 24, when 89 persons were killed and 385 injured, was the subject of a report made last night by the Los Angeles county grand jury. It was said that the collapse of the auditorium platform was caused by a girder made defective by rust. It further asserted that the weakened spot had been concealed by a splice and that the defect "could only have been detected by boring or removal of the slab."

RANCH HAND HEIR

SANTA ROSA, Oct. 21.—Henry Meyer, a poor ranch hand, formerly employed in a cannery, was located here and informed that he was heir to a fortune, said to be in excess of \$100,000, left him by his mother in Hanover, Germany. He was found on a ranch near Mt. Diablo and many of his German friends congratulated him when he arrived. He does not think he will go to Germany, being content to let the consular service handle the inheritance for him.

Warner's Safe Remedies

The Remedy for Rheumatism
Acute rheumatism is an inflammation of various parts of the body, characterized by general fever, by pain, heat, redness, and swelling of the joints affected, and by a tendency to leave one joint suddenly and fasten upon another. It is primarily the result of the failure of the kidneys to take uric acid out of the blood.

Warner's Safe Rheumatic Remedy
is one of the most effective remedies known to medicine in expelling uric acid from the system, and it thereby removes

of the disease.

"I had rheumatism so badly that I was unable to walk except with great difficulty, and I had taken a large quantity of lightening medicine with little relief. Four bottles of Warner's Safe Rheumatic Remedy completely cured me. I am now feeling fine." Mrs. S. M. Chascoe, Nashville, Tenn.

All's not back that glitters in "The Enchantress." There are Kitty Gordon's gowns, for instance, to say not a little of Victor Herbert's music and a lot of dramatic whistling-boos, when the fairy prince playfully points out the banana peels on the path of a young girl's life. "The Enchantress" need not be considered in the general scheme of moral uplift. It is too busy uplifting comic opera and Kitty Gordon's bank account.

Physiological experts may find much to their liking in contemplation of the Gordon back. Inasmuch as nine-tenths of us are in that category and the remainder mere students of powdered pulchritude, the exposed and anatomical V comes in for much scrutiny during the presentation of the opera comique now at the Macdonough. It's a mighty good book and a powerful score that can overcome the press-agenting that they've given the back—but De Grease, Smith and Herbert have done it.

OPERA'S THE THING.
The which is why "The Enchantress" could be abandoned by Kitty Gordon, with not a back to stand on, and still get away with it, from box-office to reviewer. Herbert has done nothing better in recent years. Here is nothing for the tired business man, the record, indeed, for "comic opera." "The Enchantress" of kings and princesses, of plotters against the throne, of a ruler's love for a plebeian and of a convenient family tree that puts blue blood into Prince Ivan's love.

Macdonough used to write me, you remember, and they were always good for a place among the six best sellers. "The Enchantress" abounds with real songstresses, which means that the field of pulchritude is left to Kitty Gordon. Brilliantly staged, capably acted, all sung—you have one more chance to see it in Oakland.

HEIRESS HERE TO CLAIM ESTATE

Mrs. Amelia Willumsen Identified by Close Friend of Her Father.

Mrs. Amelia M. Willumsen, formerly Amelia Duvall Stevens, has arrived in Oakland to claim the estate of the late Alexander Duvall of Livermore. Yesterday she was identified by C. F. Mess, a Livermore druggist and former close friend of her father. Along with a portion of Mrs. Willumsen for partial distribution of the estate, Public Administrator H. B. Mahrmann has filed a report which shows that there is now more than \$10,000 in cash on hand, together with about \$70,000 in bonds, a portion of which was forwarded to New York from England, where they had been in deposit. The jewelry, which belonged to Alexander Duvall and his wife is included in her personal property. In addition there is the Chateau Bellevue near Livermore which forms a valuable part of the estate. According to Attorney A. P. Leach, who represents the public administrator, the entire estate will amount to

Local Evidence

Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ. Here's an Oakland fact. You can test it.

Mrs. S. Carlson, 3531 West St. Oakland, Cal., says, "Off and on for several years I was subject to attacks of kidney complaint. My worst trouble was pain in the small of my back and it seemed at times as if my back would break. During winter and wet weather the trouble was always worse. Together with the backache I was often annoyed by headaches and dizziness. I doubted whether doctors understood my case or not for the medicine they gave me didn't help me. I heard that Doan's Kidney Pills had been recommended by a physician and I tried them. The pain in my back left me and I was relieved of all the other troubles."

A LASTING EFFECT. When interviewed by our representative on September 16, 1912, Mrs. Carlson said: "My high opinion of Doan's Kidney Pills is unchanged. I

THREE FEATURES ON BROADWAY PROGRAM

For the regular midweek change at the popular Broadway theater tomorrow there is announced three extra big features in addition to the other acts and pieces. The first of these is Sullivan & Connolly's Scotch play in Graham Moffatt's great comedy, "The Concealed Dead." Graham Moffatt will be remembered as the author of "Glen Riddle" and "The Scotchman's Boy." In this vaudeville sketch the Scotch characters are said to excel even the characters in his bigger work. The second attraction is the Gypsy Countess Verano in her classic selections on the Hungarian Czarina on an instrument that is much in favor in Hungary on this program will be the moves of the events surrounding the last night on the Barbary coast. "San Francisco's great white way" which was closed forever a few short weeks ago by the authorities. These pictures are authentic and show in detail all the doings of that eventful night which has been described by some writers as "Civilization's Wildest Night."

There will be three other all new acts and pictures that will round out one of the best programs the Broadway has presented this season. The new show opens at tomorrow's matinee.

CUTTING ESTATE IS ADMITTED TO PROBATE

The will of the late Francis Cutting has been admitted to probate by Superior Judge Ogden. The portion of the estate which will be handled through the courts amounts to \$476,000, including the 21st 100 in real estate.

KILLED BY AUTO.

ANTIOCH, Oct. 21.—S. G. Helmback, a well-known contractor of Oakland, near here, died as the result of striking his head against the radiator of his automobile while crawling it. The handle slipped and Helmback was thrown violently forward. He did not appear to be hurt at the time, but a few hours later concussion of the brain resulted in his death. The funeral will be held here next Wednesday under the auspices of the Masons and Odd Fellows.

FALLS FROM CAR INJURED.

SAN FRANCISCO, Oct. 21.—While attempting to board a car at Pacific and Kearny streets at 2 a. m., Leonard Gerome, who lives at the New York House, was struck and thrown to the pavement. His head was split.

PEER IS ACTOR.

LONDON, Oct. 21.—The Earl of Carrick made his debut on a public stage last night at the Coliseum in the title role of a sketch called "Colonel Cleveland, V. C." As an actor the peer was applauded loudly.

BEST NEWS FROM RICHMOND

FOOTPADS HOLD UP TWO WORKMEN ON STREET WORK

Richmond Man Slugged, Robbed and Left Unconscious on Railroad Track.

RICHMOND, Oct. 21.—Two attempts at highway robbery here last night, one of which was successful, have put the local police on their mettle again. While crossing the main line tracks of the Southern Pacific railroad last evening just after dark at the Barrett avenue crossing, George Cornell, an employee of the Standard Oil Company, was accosted by a man who pulled down over his eyes. The man demanded that Cornell throw up his hands and when the workman refused he was knocked unconscious by a blow on the head from a second man who came up behind him out of the darkness along the tracks.

When Cornell regained consciousness shortly after he found himself lying across the railroad track, bleeding profusely and minus the money he had received at a local bank a few hours previous on his pay check.

With a new crash on his head and blood running down his face blinded him so that he barely had time to scramble to his feet and stagger off the tracks as a fast passenger train dashed over the spot where he had lain a moment before. Cornell made his way as fast as possible to the Southern Pacific depot, where word was sent to the police and medical aid summoned. A search of the vicinity failed to show any trace of the robbers other than footprints in the dust and dirt along the tracks.

A short time after this holdup a report was received by the police from Pullman that a man there had been held up by a stranger answering the description of the man who had stopped Cornell. The man reported the robbery had taken to his heels when ordered to throw up his hands and said to those who sent in the police call that he had run so fast the footpads got no opportunity to rob him. He was in a hurry and went away, the Pullman hotel people failing to get his name.

RICHMOND NOTES

RICHMOND, Oct. 21.—The preliminary examinations of Sald All Kahn, the Hindu who murdered Rosa Dominga near Santa Fe, and who was captured after a state wide search by the Richmond police and the county sheriff, will be held here Thursday. Attorney W. D. Grady, a former Richmond lawyer, will defend the accused, which will be a mere matter of form now that the full confession of the Hindu has been made.

S. E. Richmond, while performing his duties yesterday, fell from his train as it was coming into this station and sustained a broken wrist.

The inquest in the case of Rosa Dominga will be held at the Smallwood undertaking parlors this evening. It was postponed owing to the difficulty in locating Sald All, the Hindu who has confessed to the crime.

Antonio Dutra, while employed at the San Pablo Lumber company mill yesterday, got too close to a circular saw and was badly cut. He was brought to town and two of his fingers were removed.

The Queen Esther society of the Wesley M. E. church met at the home of Miss Helen Smith last evening and completed arrangements for their Christmas social.

The ladies of the First Methodist church will hold a Dutch lunch at the church auditorium Thursday evening.

The wife of James Reid, yesterday at Santa Fe, presented him yesterday with a 14-pound baby boy, of which the young father is justly proud.

Mr. and Mrs. Fred Sherman and son George, well known Richmond pioneer family, returned yesterday from Los Angeles, where they motored in a new 1914 Oakland touring car.

Miss Jones, for some months deaconess of the Wesley Methodist church, will transfer her activities to the First Methodist church last evening and completed arrangements for their Christmas social.

COUNCIL BUSY ON STREET WORK

Immense Amount of Public Improvements at Richmond Discussed.

RICHMOND, October 21.—An immense amount of street work is now going on in Richmond, together with much other public improvement, gave the city council a hard session last night until 11 o'clock, going over details and adopting resolutions for further improvement. The submission of plans and specifications by the engineers on jobs already completed was the main feature of the session.

A map was submitted from Colonel Reese showing the manner of closing Ellis Street, which action was agreed to by the council some time ago. A resolution accompanied the map, and same was adopted.

A diagram for the opening of Sixteenth street under the Santa Fe was submitted by Engineer Chapman and adopted. The submission of plans and specifications by the engineers on jobs already completed was the main feature of the session.

In conjunction with the Santa Fe will open Sixteenth and Twentieth streets under the Santa Fe. An assessment district will be formed to pay for the improvement.

Plans and specifications were submitted and adopted for the improvement of Thirteenth street from Chandler to Santa Fe right-of-way, and the resolution of intention to do the work was adopted.

LYMAN ALLEGES THEFT OF PAPERS

Defense for Doctor Claims the Government Obtained Evidence Underhandedly.

LOS ANGELES, Oct. 21.—When the trial of Dr. John Grant Lyman was resumed today in the federal court arguments were begun over the contention of the defense that the government practically had stolen certain documentary evidence it had introduced against the defendant.

Paul Schenk, attorney for the promoter, accused of having used the mails in furtherance of fraudulent schemes to his purpose of Panama lands, contended that correspondence when Lyman's Los Angeles office was raided shortly before his arrest in Oakland in 1911, could not be introduced against his client. He cited several decisions in support of his arguments.

Edward A. Regan, special prosecutor, vigorously defended the right of the government to use any evidence it might obtain. Judge Olin Wellborn was expected to give a ruling at the conclusion of the arguments.

Editor Thomas Watson Cleared of Charge

AUGUSTA, Ga., Oct. 21.—The trial here of Thomas Watson, charged with sending of obscene matter through the mails, ended abruptly at noon today when Federal Judge Rufus H. Foster sustained the motion of the defense quashing the indictment against the Georgia editor.

MEINEL SSOHN CLUB WILL GIVE HIGH JINX PARTY

RICHMOND, Oct. 21.—Arrangements for the Mendelssohn club's big jinx to be held in Fraternity hall on the evening of October 31 were completed at the home meeting of Mrs. H. A. Sivers at the weekly meeting of that big musical organization. The early part of the evening's entertainment is to be taken up with a program, the details of which are being kept a dark secret, but it is understood that the ladies have several weird surprises in store.

Following the program dancing will be indulged in until a late hour, at the close of which a banquet is to be served to the committee members and their friends, relatives and relatives, and a strictly invitational social event of the year is well known. The hall will be decorated in the colors of the club, white and gold.

LOVED ONES' FACES BARRED FROM TRAINMEN'S WATCHES

CHICAGO, Oct. 21.—No longer can the engineers, conductors, brakemen and other employees in the operating department of the Illinois Central railroad carry pictures of their wives, sweethearts and babies on their watch crystals. An order against the practice was issued yesterday and distributed today by the management.

Officials of the company have decided that such pictures are likely to attract the attention of employees from the work, and that accidents might result. When an employee pulls out his watch his attention should be devoted exclusively to the time, they say. The order also specifies plain dials of a uniform design.

"This rule may seem to be a small matter, but after all, it is the little things that count," said Vice-President L. Park in discussing the order. "Every railroad man will admit that success in the operating department requires strict attention to duty."

GOVERNOR AND FAMOUS INDIAN FIGHTER DEAD

TOPEKA, Kan., Oct. 21.—General Samuel J. Crawford, third governor of Kansas, famous as an Indian fighter, died at the home of his daughter, Mrs. Arthur Capper, here today, at the age of 73.

Murder Case May Disclose Blackmail

ATLANTA, Ga., Oct. 21.—Detectives in Atlanta and Birmingham today were working to uncover what they claim will prove to be an attempt at blackmail connected with the Phagan murder case. Other arrests may follow the detention of Ira W. Fisher, who is held on a charge of criminal libel.

Fisher's statement that he could prove another man and not Leo M. Frank killed Mary Phagan, the factory girl murdered here last April, revived interest in the unique case. Attorneys for Frank, who has been convicted and sentenced to hang, had Fisher brought to Atlanta from Birmingham. After hearing his story, in which he accused a well known Atlanta furniture dealer of the crime, the attorneys turned Fisher over to local detectives.

BLOWS OUT GAS; SAVED.

SAN FRANCISCO, Oct. 21.—J. F. Costa hired a room at 654 Jackson street at midnight, and although he had been warned previously by friends, blew out the gas. He has been in the country for some time and was accustomed to oil lamps. He was found at 2 a. m. unconscious, but revived at the Harbor Emergency hospital.

AUTOIST RUNS DOWN CHINESE; LEAVES VICTIM

SAN FRANCISCO, Oct. 21.—A speeding autoist has caused a disastrous accident and has left his victim lying on the pavement in this city. Tee Wo, a Chinese laundryman, of 310 Tohama street, was driving his wagon along Larkin street, near Bush, early this forenoon, when a machine suddenly dashed around the corner. He tried to stand aside from its path, but was unsuccessful, and the light vehicle was struck and bowled over, the horse being thrown down and hurt, and Tee falling into the wreckage. When he recovered himself the auto and its driver were nowhere to be seen, and the only description the police have is that it was a large green-painted car. Tee was taken by Policeman Lane to a nearby drug store, where several wounds on his head were dressed.

BANDIT HAS NO TERROR FOR LOS ANGELES WOMAN

LOS ANGELES, Oct. 21.—A leveled revolver in the hands of an alleged bandit held no terrors for Mrs. E. M. Sanders, proprietor of a grocery store, whose pluck was responsible for the detention by the police today of J. J. Pinkerton and J. L. Hellman. Pinkerton and Hellman were captured later and were identified by Mrs. Sanders as the would be robbers.

According to Mrs. Sanders the prisoners tried to keep her at a distance by flourishing a revolver as they rifled her cash drawer. Disregarding the threats, she snatched the pistol from Pinkerton's hand, she said, and the men fled, dropping their loot on the floor as they left the building.

TO GROW HAIR ON A BALD HEAD

BY A SPECIALIST. Thousands of people suffer from baldness and falling hair who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put on

PAY LAST TRIBUTE TO LATE J. A. MOSS

SAN FRANCISCO, Oct. 21.—The funeral of the late George A. Moss, pioneer business man of San Francisco, was held yesterday morning in Grace Cathedral, with interment at Cypress Lawn. The services were conducted by the Rev. J. W. Gresham and the Rev. David Evans, old friends of the deceased.

Floral tributes from many friends bore testimony of their loss. One of the most beautiful places was a pillow of flowers from the Chess and Checker Players' Club of the Mechanics Institute.

GASOLINE EXPLOSION WRECKS YACHT HILLIES

ATLANTIC CITY, N. J., Oct. 21.—An explosion of gasoline totally wrecked the yacht Hillies in Great Bay yesterday. A fire broke out on the yacht when it was being refueled by a well known Philadelphia physician, who owned the craft, Captain Housley, and a seaman jumped overboard and swam nearly a mile to an island. They were rescued by federal life saving crews, who noticed their signals of distress. The men told coast guards that they were bound from Beach Haven to Atlantic City when the gasoline caught fire. They were unable to get it under control and leaped into the water when they saw it was a hopeless battle to keep the fire away from the tank.

SUFFERED AWFUL PAINS

For Sixteen Years. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, and was thin, weak and nervous. When I would lie down it would seem as if I was going right down into some dark hole, and the window curtains had faces that would peek out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness badly, my abdomen was sore and I had awful pains.

"I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."—Mrs. W. F. SAWYER, River View Farm, Moretown, Vermont.

Another Case.
Gifford, Iowa.—"I was troubled with a weakness, also with irregularities. I had very severe and steady headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."—Mrs. IMA MILLER, Gifford, Iowa.

NATIONAL PARLOR GIVES PLEASING ENTERTAINMENT

The members of National Parlor No. 113, N. S. G. W., were hosts at a dinner given in honor of the Pioneer members of the Parlor, at the Hotel Granduclos, San Francisco, on Saturday evening, Oct. 18. Covers were laid for one hundred and twenty-five guests, the members responding to invitations sent throughout the entire State.

Junior Past President Philip J. Newmann acted as toastmaster, and the guest of honor was Major Chas. L. Tilden, first President of National Parlor, who responded to the toast, "Our Pioneer Members."

WIFE CHARGES HUSBAND WITH FAILURE TO PROVIDE

J. T. Carlisle, a butcher, was arrested in this city yesterday on a warrant sworn to by his wife, Lottie Carlisle, 1380 Golden Gate avenue, charging him with failure to provide for his minor child.

THREE AVIATORS IN FRENCH ARMY KILLED

EPINAL, France, Oct. 21.—Lieutenant Garnier and Sapper Jenrot of the French military aeroplane depot were returning from Epinal yesterday when the engine of their machine stopped and suddenly the machine capsized and the aviators, falling from a height of 80 feet, were killed. About the same time Corporal Aviator Dautroche, while making a flight near the depot met with an almost similar accident. The engine of his machine became detached and the plane turned over and fell into the river Moselle. Dautroche was drowned.

DINUBA JEWELER IS JAILED IN NEW ORLEANS

NEW ORLEANS (La.), Oct. 21.—Eugene C. Wagnard, wanted in California for the alleged theft of many thousands of dollars worth of jewelry, was arrested here yesterday and taken to jail. He admitted his identity and that he had traveled under the aliases of Sherman and Scheuchman. When searched at police headquarters, \$418 in cash, nine diamond rings and a stickpin were found on his person.

PURSE IS RETURNED

CHEYENNE, Wyo., Oct. 21.—A month ago Andrew Mandanis found the railroad station. Since then he has conducted a nationwide search for the owner. He received a letter yesterday from W. L. McCleary of San Bernardino, Cal., stating that he was the owner of the money and asking that it be sent to him. McCleary enclosed 4 cents in stamps. Mandanis contributed 6 cents and sent the money by registered mail.

ALL DEAD AND HURT TAKEN FROM WRECKAGE

MOBILE, Ala., Oct. 21.—Despite the long list of seriously injured in the wreck of a troop's train near Buckatuna, Miss., on Sunday, the number of dead, it was not increased during the night. A sergeant who supervised the removal of the soldiers' equipment from the wreck scene, declared that all of the dead and injured had been removed from the debris of the three coaches that went over the Mobile and Ohio railroad trestle.

POLITICAL REASONS PARALYZE THE LAW

A scandalous scene was enacted at the meeting of the City Council yesterday. Commissioner Turner proposed to revoke the license for a cafe at Seventh and Wood streets conducted by L. Regas, but said to be owned by an unnaturalized Greek, and was opposed by Commissioners Forrest and Baccus. Mr. Turner presented evidence given by the police that Regas, the ostensible owner of the place, had knowingly rented a portion of the building for purposes of gambling, had sold liquor to vagrant women and had hindered the performance of their duty. He presented evidence that this condition had obtained for a long time.

This colloquy followed:

"Then why wasn't this saloon closed before and the license revoked?" demanded Baccus pointedly, referring to testimony extending over of Chief of Police Petersen's term, a period of four years.

"That's a question that I should prefer not to answer," answered Chief Petersen. "But there were reasons."

"What were they?" persisted Baccus.

"Mainly political, weren't they?" suggested Turner.

"Yes, they were," responded the chief.

"There wasn't any need of saying that," answered Baccus.

"You brought it out," Turner came back.

Whereupon the inquiry as to "political reasons" was stopped. The public is deeply interested in knowing what the political reasons were, and whose was the pull that stayed Chief Petersen's arm.

We will state, by parenthesis, that THE TRIBUNE intends to find out what those political reasons were before this license controversy ends. When that is ascertained we may possibly learn why it has been well-nigh impossible to close lawless and disreputable saloons.

We will add that we do not blame Chief Petersen. He is a truthful man with the courage of his convictions. If he were given a free hand he would close up every lawless and disreputable shop in town in short order.

It is significant that no member of the Council disputed Chief Petersen's statement. All save Turner were, apparently disconcerted with the chief's frankness, and were only too anxious to drop the subject.

There is no more to be said at present, save that if political debts are paid with permits to run lawless saloons it is high time the people of Oakland were made acquainted with the fact. Regas' case was laid over at the request of his attorneys, Messrs. Stetson and Koford. Let us hope the light will be turned on by and by. The ray shot across the Council board by Chief Petersen has given a glimpse of how and why things are done as they are.

Unsatisfactory Highway Building.

From what we hear the \$18,000,000 the people voted for highway construction is not being spent to good advantage. Nearly every person of whom THE TRIBUNE has sought information gives a bad report of the State highways thus far constructed. It is complained that the roads are too narrow and poorly constructed, and are giving way almost before they are completed.

We regret to hear this. It will discourage State highway building if the money voted in 1910 is being wasted or misapplied. It is said that an undue amount has been expended in preliminary work, that much of the surveying work has been done by young men having no previous experience, and that the locating has been performed in such a careless, slipshod manner as to require being done over.

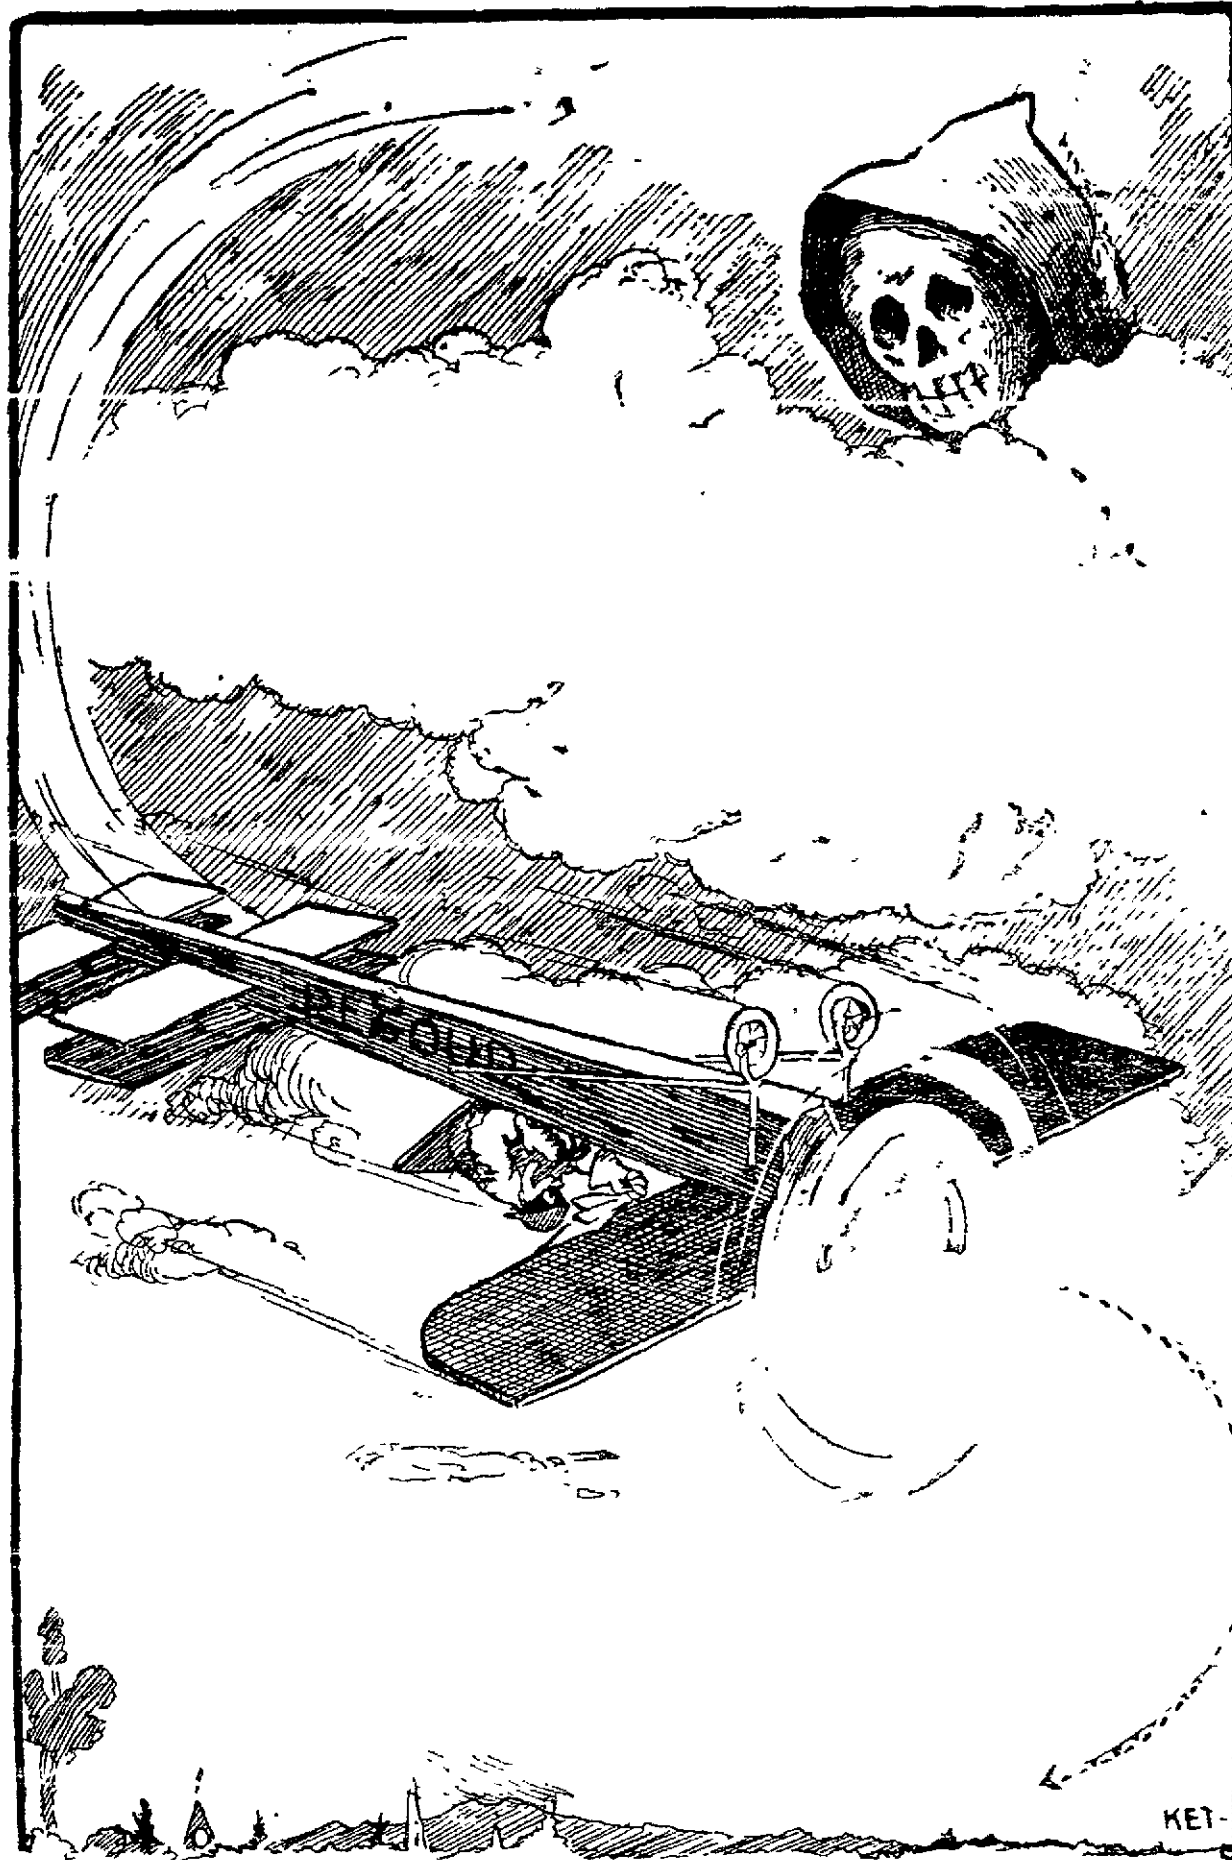

Another ground of complaint is that the roads are poorly hal-lasted and so thinly dressed with concrete as to be incapable of withstanding heavy-wheeled traffic. The specifications called for a concrete dressing four inches thick, but if we are correctly informed that the layer of concrete ranges from two and a half to four inches in thickness. The result is that the roadway bends and gives way under heavy traffic. In some places the contractors have done their work so badly that they have been required to do it over, but the roads seem unsatisfactory as a whole.

It seems that an effort was made to build more miles of highway than the money available would permit, so the roads were narrowed down to a width of sixteen feet and the construction made cheap and light. Inferior roads scarcely wide enough for vehicles to pass are the result. Thus poor engineering work has been supplemented by a mistake in judgment to the detriment of the highway system it was planned that the State should build.

Managers who produce brothel plays excuse themselves by saying they are producing what the people want. Pandersers would make the same excuse with equal claim to respect. They supply a demand. If their services were not required by some there would be no pandersers. Publishers of pornographic plays provide something some people want, but we send them all for all that. Because some people want the prurient filth that is social evil presented on the stage is no reason why their tastes should be gratified. Managers present brothel plays for profit. They are dealing in social corruption for the profit that men make and sell obscene books and pictures.

A Suggestion for the Commercial Club.

Julius Kruttschnitt, president of the board of directors of the Southern Pacific, is in San Francisco, and R. S. Lovett, representing the Harriman interest in the road, is expected out here in a few days. Would it not be a good idea for the Oakland Commercial Club to try and get Judge Lovett, Mr. Kruttschnitt and Mr. Sproule, the executive head of the Southern Pacific system, to come over here together and look the town over, and hear any suggestions our citizens desire to make. We are confident a ride around the city will impress them with its importance and its needs. We would like the Southern Pacific to co-operate with our efforts at upbuilding, and a personal examination enables things to be seen in a clearer light.

In our opinion the Commercial Club can render the city a distinct service by getting the Southern Pacific heads to come over here, survey the ground and have a talk with our citizens. We want the terminal grounds at Fourteenth and Franklin streets improved, and the case can be better presented with the situation directly before the Southern Pacific officials. Perhaps we can show them how they can get together with the citizens to the profit and advantage of both the community and the railroad.

The effort is worth a trial in any event. THE TRIBUNE hopes the gentlemen of the Commercial Club will see merit in the suggestion and exert themselves to get the Southern Pacific officials to come to Oakland, look the ground over and confer with our citizens in a friendly spirit of co-operation.

The explosion on Count Zeppelin's aerial dreadnought will go far to allay England's fear of invasion through the air. The whole German aerial admiralty was lost in the calamity, which also will not occasion more grief in England than is becoming. Sorrow in Great Britain will be tempered by relief from anxiety.

On the Right Side at Last.

At last the Enquirer has been compelled to come out unequivocally in favor of the saloon reduction ordinance. Whether this is due to a change of heart or to the pressure of public opinion we cannot say, but it is none the less gratifying that our crapulous contemporary should finally line up with the forces of decency and good order. We welcome it to the fold. Better late than never.

Yesterday afternoon, for the first time since the movement to reduce the number of saloons and place the liquor traffic under stricter regulation was inaugurated, the Enquirer came out in unequivocal support of the proposition. We can pardon its boast that it originated the movement if it will continue to stand up for this measure of social reform. We can only hope it will continue to fight on the right side even if it was a long time in coming over. Nor do we care how loudly it crows. The sun would still be rejoiced that our contemporary has awakened in time to herald the dawn and appropriate some of the glory of winning a moral victory.

It has not helped win the fight, but it may hurrah as loud as it pleases after the victory is won. We shall not grudge it any credit it may get.

DUCK WHEN YOU HEAR 'FORE'

The ancient and honorable game of golf is not without its misfortunes to the eyes of its devotees. Many people have lost eyes because, like Let's wife, they looked back. The familiar cry of "Fore" has been the signal for ocular destruction many times. When this imperative vocal signal reverberates over the golf field, the first impulse of the average player is to look behind and this is a fatal mistake, for every once in a while, a ball strikes the eye and it usually comes with so much force as to destroy the eye or seriously damage it. Vision, at least, is almost always lost and the removal of the eyeball itself is frequently necessary to prevent a sympathetic and fatal disease of the other eye. The lesson to be learned is not to look back on the golf field. When "Fore" is called look the other way and lean forward, as it is better to be hit on any other part of the body than on the head. Even when "Fore" is not called it is gravel, etc., flying around the player better not to look back, except when necessary, as balls are always liable to be flying (especially on small and crowded fields) and an eye injury is always among the possibilities. Another, but less frequent source of eye accidents on the golf field is the reckless and inconsiderate swinging of clubs in making practice shots when near other players. This is a common practice and should be sharply discouraged, as some fatal accidents have occurred by a crushing blow on the head by a golf stick. Eyes have been seriously and totally injured by the same custom. If players wish to make practice strokes they should do so in remote places where they will not injure other people. Eyes are also frequently injured by being struck with foreign bodies, such as sand, gravel, etc., flying off from the end of a club, as when a golf field. Eyes are also frequently injured by being struck with foreign bodies, such as sand, gravel, etc., flying off from the end of a club, as when a golf field. When "Fore" is called look the other way and lean forward, as it is better to be hit on any other part of the body than on the head. Even when "Fore" is not called it is gravel, etc., flying around the player better not to look back, except when necessary, as balls are always liable to be flying (especially on small and crowded fields) and an eye injury is always among the possibilities. Another, but less frequent source of eye accidents on the golf field is the reckless and inconsiderate swinging of clubs in making practice shots when near other players. This is a common practice and should be sharply discouraged, as some fatal accidents have occurred by a crushing blow on the head by a golf stick. Eyes have been seriously and totally injured by the same custom. If players wish to make practice strokes they should do so in remote places where they will not injure other people. U. C. BLUES WAR WITH REDS

**Cadets Advance Toward
San Pablo to Oppose
Invaders**

**Full Force Engaged in
Interesting Mimic
Warfare**

UNIVERSITY OF CALIFORNIA, Oct. 21.—With the mounted patrol as scouts the University Cadet corps advanced this afternoon upon the hostile "red" army, which had marched from Vallejo Junction toward San Pablo and was met at the latter place by the collegiate "blues." The battle was waged from 1 o'clock to 6, ending at a later hour in a "final skirmish" in the vicinity of Thousand Oaks.

The university exercises paused this afternoon to permit the carrying out of the military maneuvers, the first of so great significance in which the University Cadets have participated. Results of the day's exercises are to be reported to the war department at Washington. Subsequently they will be incorporated in problems sent to various military departments for study.

ATTACHED TO BLUES.

The regiment of cadets was supposedly attached to the blue army, which this morning occupied Oakland and Berkeley. At noon the commandant received orders from the commanding general of the blues at Vallejo Junction to march his detachment to the vicinity of San Pablo and drive back a hostile red force consisting of about two battalions of infantry with a few mounted men. This force was reported to have marched from Vallejo Junction this morning and to be on its way south toward Berkeley. No other red troops had been reported south of the Sacramento river.

The main body of the blue division remained at Oakland. The country through which the university regiment was to march was friendly to the blues.

Shortly after 1 o'clock the first call was blown and at 1:10 the cadets assembled. Commanded by Lieutenant Colonel George Perkins, the advance guard, composed of the first battalion and a detachment of mounted scouts, cleared the Arch street entrance to campus at 1:25 p. m. The main body of troops, composed of the second and third battalions and the hospital corps, followed.

CLEARING THE CAMPUS.

Clearing the campus the troops marched by way of Rockwood, Alameda, Virginia, Josephine, the Alameda, Mirin, Modoc, Colusa, Santa Fe, Fairmont and San Pablo avenue. Just beyond Thousand Oaks the hostile red army was encountered and the conflict raged on that point northward. Orders on the field were transmitted to trumpeters mounted on bicycles, who issued the orders to the entire force by bugle.

Three new auxiliary organizations of the military department of the university seen in action for the first time were the detachment of mounted infantry scouts used for patrol and messenger service, the hospital field corps trained in the American Red Cross Society's "first aid to the injured," and lastly a dragooning corps of six men equipped with uniforms and surveying instruments with which they mapped the field of action. The hospital corps consisted of six men with full equipment of stretchers and medical supplies. It was under the direction of the university physician, Dr. G. F. Reinhardt, who had provided saddles, bridles and carbines had also been furnished the members of the mounted detachment.

UNMUZZLED DOGS GET LAST RESPITE

**Formal Order Issued With
Special Paragraph Against
Cageless Animals.**

Dogs whose owners "make a laughing stock of the law" are to be treated with extra severity, if Chief of Police Petersen and his men observe the orders issued by Commissioner of Public Health and Safety Turner today with literal exactitude. The ordinance giving the police power to shoot unmuzzled dogs has received the endorsement of the city council, and Turner issued orders today that as soon as the ordinance shall have gone into effect the police will be instructed to proceed to shoot unmuzzled dogs running at large in the streets.

The formal order issued to Petersen today contains a paragraph which directs his attention particularly to those dogs "whose owners have tried to make the muzzling law a laughing stock by improper muzzling."

Turner's order follows:

W. J. Petersen, Chief of Police, Oakland, Cal.—Sir: Upon the passage of the amended ordinance concerning the pound, such ordinance provides for the shooting of dogs under certain conditions, and after the declaration by the city council, by resolution, that an epidemic of rabies is existent in Oakland, you are hereby directed to instruct your subordinates to act vigorously under such ordinance.

You will particularly give attention to those dogs whose owners have tried to make the muzzling law a laughing stock by improper muzzling. It might be well to make this enforcing it to give still more warning than has been given to the people. Yours truly,

F. C. TURNER,
Commissioner of public health safety.

OFFICERS OF Y. M. C. A. IN SESSION

**General Secretary Fechter and
Heads of Departments
Are Hosts.**

**Northern Section Entertained
by Local Members of
Association.**

Employed officers of the Young Men's Christian Association of Northern California opened a conference this morning at the local Y. M. C. A. building, G. G. Citrus of Sacramento, president of the body, presided. General Secretary John Fechter and the heads of the local department acted as hosts.

The session began at 9:45 a. m. with an inspirational address by Rev. William Keeney Towney of the First Baptist church. The subject of the affiliated schools of the institution was discussed by T. E. Watt, educational secretary, Oakland; F. A. Jackson, general secretary, Berkeley; and J. Gustave White, educational secretary, San Francisco. An address, "The Old Trail," was made by Thomas J. Wilkie, senior secretary of the state committee.

The afternoon program was devoted to the immigrant and was divided into a number of heads, as follows. Devotions by Rev. Alexander Allen, St. Paul's Episcopal church Oakland; "Resume of Foreigners in Various Fields," F. R. Buckalew, general secretary, Stockton; "Present Activities—Inside the Building," Perry M. Olsen, membership secretary, Oakland; "Outside the Building," F. H. Lenz, San Francisco; "The Young Men's Christian Association vs. Alien Labor," Earl Chapman, assistant secretary, Sacramento. A discussion of these points was conducted by Dr. W. Blumfeld, immigration secretary, San Francisco.

EDUCATIONAL SYSTEM.

W. D. Eastman, who was scheduled to deliver a short address on "The Scope of Affiliated Schools," did not speak, arriving too late to take any part in the program. The importance of an affiliated educational system between the various branches of the Young Men's Christian Association throughout the country was

vital importance," said Watt, "that the institutions affiliate with each other on educational subjects, along more substantial lines than are at present in force. It would not only be to the organization's advantage as a whole but also to the men and boys enrolled. As an example of what I am trying to get at I will cite an instance which occurred very recently. A youth who had entered an educational course in a Los

Angeles Y. M. C. A. had occasion to move here. He had paid his tuition to the Los Angeles branch in advance and had received but several nights' benefit from it. He came to me, who was known to the facts of the case and asked if he could not get the benefit of the money paid in the south. I said sure. When I wrote the Los Angeles educational secretary he informed me that it would be impossible to send the money to us, but that should an Oakland boy pay his fee in advance and then move to Los Angeles they would allow him the educational course as far in advance as he had advanced his money in our organization."

"We have now entered into a similar agreement with Los Angeles, making it possible for a young man who has entered either organization and has paid his fee in advance to get the benefit in case of a change of residence without extra expense."

Jackson also emphasized the urgent need of such an affiliation. "Such an affiliation between Oakland, Berkeley and San Francisco Y. M. C. A.'s would strengthen materially the progress and standing of the organization," he said. "In Berkeley, where I am, we have not the finances to install laboratory, scientific and other expensive courses. However, the Oakland and San Francisco bodies have these courses. Therefore I suggest that in the event that a student entering our educational course, if he wish to take up a course which we have not but one of the other branches, let him have the advantage."

SUGGESTIONS RECEIVED.

Numerous suggestions as to the appointment of a committee to consider the manner in which to cover the ground and other similar work were also made. All of those present appeared to be greatly enthused over the remarks, and it is probably that action will be taken. Although it was not definitely decided it was intimated that the next session would be at San Jose next month. Among those present at today's session were C. G. Titus, Sacramento, who presided over the affair; Earl Chapman, Sacramento; John R. McArthur, Sacramento; G. C. Wilson, San Jose; Edwin Corzesa, San Jose; F. A. Jackson, Berkeley; Drury Waldman, Stockton; Fred B. Lenz, San Francisco; J. Gustave White, San Francisco; Thomas J. Wilkie, Los Angeles; F. R. Buckalew, Stockton; W. H. Leininger, San Francisco; L. S. Hanna, San Francisco; George Calkins, San Francisco; and R. E. Wilson, Fremont. San Francisco. Among those present from the Y. M. C. A. of the Pacific Northwest were W. C. Tooke, C. H. Street, T. S. Caldwell, E. B. Brier, C. A. Bader and G. J. Giest.

Carpenter Robbed Of Money and Clothes

LOS ANGELES, Oct. 21.—When Thomas Hunstet, a carpenter who came here yesterday, he discovered that he, his wife and their three children had been robbed during the night of everything they possessed except their night clothes. Hunstet could not go to his work until the police had provided him with trousers and a few other garments and his wife and children remained in bed until late in the day, when a police matron obtained clothing for them.

WANTS GREATER CHRISTIANITY.

EDITOR TRIBUNE: I was so impressed with that part of a sermon I heard, a few Sundays ago relative to the training of the hands as well as the minds of our children in the public schools, that I cannot but help say a word on the subject. It seems to me that upon the carrying out of this principle, along proper lines, depends the salvation, not only of the nation, but of the race as well.

I would not deny our educational system, for it is the best we have, if not the best we know. Like many others, however, I think our system of education was originally intended for the privileged few, for those who were not obliged to work with their hands, and we have perpetuated this condition so that even now, although we say and even teach that manual labor is honorable, yet in our inmost souls we evidently do not believe it, for our actions clearly show the contrary belief. Our teachers on our public schools, our professors in our colleges, our preachers, our professional men everywhere, say that manual labor is honorable, and advise our young people to work with their hands, yet in all my experience I have never met one who did not like soft white hands or who, if he were caught in the act of working with his hands, did not apologize for the fact for fear that someone might think that he was ashamed to make his living that way.

Now what does this mean? Simply that we are only making belief that manual labor is honorable. That is the sum and substance of the whole thing. In which we are taking such a prominent part. If it were not so, why do we not become carpenters, blacksmiths, shoe-makers, sewer-diggers, servant girls, etc., after we leave college? And who are the men who do not like soft white hands or who, if he were caught in the act of working with his hands, did not apologize for the fact for fear that someone might think that he was ashamed to make his living that way? Now what does this mean? Simply that we are only making belief that manual labor is honorable. That is the sum and substance of the whole thing. In which we are taking such a prominent part. If it were not so, why do we not become carpenters, blacksmiths, shoe-makers, sewer-diggers, servant girls, etc., after we leave college? And who are the men who do not like soft white hands or who, if he were caught in the act of working with his hands, did not apologize for the fact for fear that someone might think that he was ashamed to make his living that way?

Here is the crux of the whole question. We preach, we teach, we talk, we set forth beautiful platitudes, and yet—and yet we will not do the things that would change the whole system for the better. We are not willing to do our own dirty work. We are perfectly willing to let some other fellow build our houses, make our bread, make our clothes, dig our sewers, etc. forsooth, because it is so honorable for him. I say this, and I say it prophetically, that the social conditions are in vain until we the educated men and women are willing to do our share of the hard, dirty work of the world. DO IT, not alone talk about it, until our college men and college women after they leave college, will enter the paths of manual labor; will work with their hands and work intelligently, because of their minds; will lift the burdens from the backs of the ignorant, thereby giving them a chance to become enlightened, for turn about is fair play. I take it, will dig the sewers so that the class who are now doing it may have a chance to wash their heads and catch a steam bath.

FIRE BUT COURTEOUS KICK.

Berkeley, October 20, 1913.

EDITOR TRIBUNE—I had occasion yesterday, on car 223, to tear off a poster that interfered with my view, advertising a "Portola Festival" in another city, and in doing so I used the key route system. All of which is legitimate, except that I submit most courteous, but firmly, that the window space belongs entirely to the passenger upon a street railway. While I am not making any statement to quote a supreme court ruling to that effect, I feel perfectly able to hand down such a decision without official aid. While I have been with the attempt to improve the fortunes of our allied Idema park interest, in which as passengers, we have no particular interest. You seem to be testing the good nature of the people, and to be inclined to increase the abuse of good taste. Now if four windows may be thus plastered up, why not twenty? Especially since it provides more work for printers and yard men. Something like this, I believe, was the reason that the California Automobile Association attempt to tear down the horrible, disgusting, dangerous billboard, of doubtful advertising value; its philanthropic design being to "furnish employment."

SENATOR BORAH NOT A MILITANT

WASHINGTON, Oct. 21.—Senator Borah of Idaho has written the Woman's Political Union of Newark, New Jersey, that he will not take part in any suffrage gathering where Mrs. Emmeline Pankhurst appears without taking the opportunity to denounce militant methods.

"While I am most anxious to assist in the cause," wrote Senator Borah, "I will not by silence or by the most indirect way seem to endorse the vicious principles which have been invoked in the fight for woman suffrage in other countries. The Senate had been invited to speak in Newark, Saturday night."

FLOODED CONGRATULATIONS.

NEW YORK, Oct. 21.—Hundreds of congratulatory telegrams poured in today on Mrs. Emmeline Pankhurst, the militant British suffragette admitted to this country at the instance of President Wilson, after her brief detention at Ellis Island. She spent the day resting at the home of Mrs. O. H. P. Belmont, preparatory to delivering an address for the cause of women suffrage at Madison Square Garden tonight.

ACCOUNTANT DEAD, PISTOL AT HIS SIDE

SAN FRANCISCO MAN TAKES OWN LIFE

Illness Is Assigned by Firm as the Cause of His Suicide.

"My Papers Are in the Safe," Is Only Message Left.

SAN FRANCISCO, Oct. 21.—"My papers are in the safe," was the only message left by Arthur Klett of 1208 Taylor street, an accountant with the firm of John T. Wright and Company, commission merchants, who was found dead and apparently a suicide in the office of the concern, 909 Postal Telegraph building, at 9 o'clock this morning. Klett had been suffering from stomach trouble for nearly a year and dependency brought about by his illness was given by the members of the firm to Patrolman Lytle, who investigated, as the cause of his ending his life.

E. J. Rangel, superintendent of the building, saw Klett alive at 8:30 a. m. At 9 o'clock H. Leon, an employee, opened the office and discovered the accountant lying prostrate with a bullet wound in his heart and a 38 caliber revolver beside him. He was dead when he reached the Harbor Emergency Hospital. Nothing was found on his person save a card and \$2.35 in coin.

The members of the firm were inclined to be secretive regarding the affair. The manager declared that the papers referred to were private documents belonging to Klett. To the police he explained that nothing could have been wrong with the man's accounts as he rarely handled more than \$100 at a time. Klett was unmarried and about 28 years old.

U. S. TO PROTECT GERMAN SUBJECTS

All Foreigners Must Be Given Full Rights in Mexico

WASHINGTON, Oct. 21.—Without waiting for the German government to ask about its forty-three subjects said to be forcibly detained in Torreon by General Villa, the United States, through Charge d'Affaires in Mexico City, has made representations to the Mexican government, supplementing those made by Ambassador William's representative, who demanded protection for the prisoners.

Consular Agent Carothers at Torreon was likewise instructed to treat with Villa in behalf of German, English, French and American subjects.

Druids Appeal to Supreme Court Now

SAN FRANCISCO, Oct. 21.—The Supreme Court will have an opportunity of settling the national dispute between the Supreme Grove of Druids with headquarters in Indianapolis, and the Grand Grove of California, as the result of an appeal to be taken from a decision holding four prominent citizens in contempt, which was rendered by Judge Van Menter, former Superior Judge George S. Bahr, Jules Godeau, a wealthy undertaker of Oakland and San Francisco, James F. Martinson and Frank Despuis, were held in contempt and fined \$250, with the alternative of five days in jail by the court for attempting to form a California Grove of Druids in Los Angeles last August in violation of an injunction restraining the Supreme Grove from taking such action.

700 Will Witness Ceremony Tonight Miss Heinrich to Wed J. J. Rosborough

MISS JOSEPHINE HEINRICH (UPPER RIGHT), WHO WILL WED JOSEPH ROSBOROUGH THIS EVENING, AND THREE OF HER BRIDAL ATTENDANTS. UPPER, LEFT—EDNA REINHART; LOWER, LEFT—HELEN NICOL; RIGHT, BESSIE MAHER.

FLORAL SETTING TO BE ELABORATE

Bishop Hanna to Officiate at Church Nuptials

Within a great pyramid setting of deep golden chrysanthemums intermingled with palms and trailing asparagus ferns and oak leaves, in the famous St. Francis de Sales cathedral, this evening, Miss Josephine Heinrich will plight her troth to Joseph J. Rosborough, the marriage uniting two of the most prominent families in the bay region. In the presence of more than 700 guests who have been bidden to witness the impressive marriage service this evening, Bishop Edward J. Hanna will conduct the service, with the assistance of Father F. C. York, formerly of St. Anthony's church, and Father Cantwell of St. Francis de Sales parish. The floral decorations of the church will form one of the most magnificent settings ever arranged here. The chancel will be transformed into a lattice work of the golden blooms and trailing ferns and oak leaves.

At the gates of the chancel, where the bride party will ascend to take their places before the altar, two great pedestals of golden-hued chrysanthemums will be placed. On each side of the chancel will be two mammoth pyramids of greenery and the golden blooms. Large bunches of chrysanthemums tied with yellow satin ribbon and tulle will adorn the aisles.

Preceding the bride party will be two tiny children—the little flower maiden, who will scatter rose petals before the bride party, and the ring-bearer, bearing the wedding ring on a golden cushion. The bride will be attended by Miss Margaret Martin as maid of honor and the bridesmaids will be Miss Margaret Moore, Miss Helen Nicol, Miss Edna Reinhart, Miss Bessie Maher and Miss May Smith of Sacramento.

Attending Mr. Rosborough will be his brother, Alex. Rosborough, who will act as groomsmen. The ushers for the evening will be Captain Harry Howland, U. S. A.; George Sessions, Naval Power, Edward Cosgriff and Harrie C. Allen.

Aside from the wonderful gowns that are to be worn by the members of the wedding party, the church will present one of the most brilliant settings in the history of social events in Oakland, with the handsomely-gowned women who are to be present this evening. Following the church ceremony the party will go to the Hotel Oakland, where an elaborate wedding supper will be served. The bride party and relatives of the two families here the decorations and setting will be as elaborate as at the church.

TOURS EUROPE.
Miss Heinrich recently returned from an extended sojourn abroad and during her travels had entree to the Grand court and was much feted while in the capital city. She is a graduate of the Dominican convent in St. Rafael and after completing her education at that school went abroad, where she continued her studies in music and the languages. Miss Heinrich is the daughter of Mrs. Emil Heinrich.

ROOSEVELT WARMLY RECEIVED IN BRAZIL

Heads Procession of the High Officials to Naval Arsenal

RIO JANEIRO, Oct. 21.—Colonel Theodore Roosevelt was received with military honors as he stepped ashore from the steamer Van Dyck here today. Edwin Morgan, United States ambassador to Brazil, with the staff of the embassy, went on board before the vessel docked, with a reception committee, including Barros Moreira, representing the ministry of foreign affairs; Lieutenant Colonel Achilles de Pederneras, Brazilian attaché at Washington; Don Jose Carlos Rodriguez, Admiral Antonio Coutinho Gomez Pereira and Antonio Olivinto de Magalhães of the Historical Institute.

The party disembarked at half past 3 on the main quay, where a company of soldiers saluted while bands played the Brazilian and the American national anthems. Several committees presented bouquets of flowers to Mrs. Roosevelt and Miss Margaret Roosevelt. Marshal Hermes Fonseca, president of the republic, was unable to be present but he sent a special representative. All the cabinet ministers of Brazil, the minister of Argentina, with the members of his legation; the presidents of the Brazilian Senate and the Chamber of Deputies, a representative parliamentary committee; the chief commissioner of police; the presidents of the various tribunals of the high court of justice; the members of the municipal council, headed by the mayor of Rio de Janeiro; high functionaries of the diplomatic corps; high members of the government and military and naval officers in full uniform were among the welcoming delegations.

A procession, headed by Colonel Roosevelt and the representative of the president of Brazil, proceeded to a reception room in the Naval Arsenal, which was decorated with Brazilian flags and the Stars and Stripes intertwined. Here Colonel Roosevelt and the members of his party were introduced to the leading officials.

Raber to Hang for St. Maurice Murder

SACRAMENTO, Oct. 21.—Charles E. Raber, Caharet singer, who was convicted of the murder of Cherry De St. Maurice, known as the "Queen of the Sacramento tunderbolt," will hang at San Quentin prison on January 2, 1914. Superior Judge Wm. Conley of Madera fixed the day of execution today. The trial of Jack Drummond, prize fighter, who Raber testified actually did the killing, is now in progress.

Plans for Recess

WASHINGTON, Oct. 21.—Plans for administration leaders in the House for a thirty-day recess were abandoned today. Speaker Charles D. McNary, who was expected to call for a recess, has decided to keep the House in session as long as the Senate adjourns on the 22nd.

AMENDMENTS TO BANKING LAWS

Currency Bill Now Being Overhauled for the Minor Changes.

Measure to Reach the Senate Committee by Next Saturday Night.

WASHINGTON, Oct. 21.—While the hearings on the currency bill before the Senate banking committee will not end before Saturday night, amendments have the attention of the federal reserve board.

President Wilson's intimation that he will not object to changes in the personnel of the federal reserve board and a reduction in the number of regional reserve banks has made it practically certain that the desires of many Senators to make those changes will be carried out with prospect of administration approval.

PROPOSED CHANGES.
Many other important modifications will be taken up when the committee work begins on the measure next week. Among the proposed changes is one that will go to the very basis of the bill, the provision authorizing the rediscount of commercial paper and the issue of currency by the federal reserve banks.

The compulsory feature of the bill, under which all national banks would be required to join the system and subscribe 20 per cent of their deposits in the stock of the federal reserve bank of their district and turn over 5 per cent of their deposits to the reserve bank also may be changed.

Another suggested amendment would limit reserve banks in their clearing to checks drawn by other banks, leaving the present collection system for personal checks unchanged.

LIMITING DIVIDENDS.
The provision limiting the dividends to be paid by reserve banks to 5 per cent may be increased to six and the provision that after the accumulation of 20 per cent surplus all profits of the reserve banks, except the dividends, shall be distributed, 60 per cent to the government and 40 per cent to the stockholding banks, may be changed to give all the surplus profits to the government. The problem of whether the federal reserve banks are to be allowed to enter the open market or buy or sell commercial paper in competition with other banks to maintain the discount rate also will be considered.

Victor Morawetz of New York, who has before the committee yesterday resumed a discussion of the bill when the reading was taken up by the committee today.

Berkeley Dean to Address Grangers

LOS ANGELES, Oct. 21.—The annual session of the State Grange opened in this city this morning, presided over by Worthington State Master E. J. Pettit of Cupertino. Delegates are present from all the granges in California. This afternoon state officers and masters of subordinate granges are submitting reports of the year's work. This evening the delegates will assemble for a welcoming address by Joseph T. Brooks of the local Chamber of Commerce and an address on agriculture by Thomas F. Hunt, dean of the college of agriculture at the University of California.

Condition of Eaton Household Described

PLYMOUTH, Mass., Oct. 21.—Conditions in the household of Rear Admiral Joseph G. Eaton prior to his death last March were described by neighbors today at the trial of Mrs. Jennie Eaton, the widow. A month before his death Admiral Eaton was planning to take Mrs. Eaton with him on a trip to Panama, according to Samuel W. Baker, a Rockland optician. Mrs. Eaton asked Baker to assist her in having the Admiral committed to an insane asylum, he said, and complained that her husband was dabbling in poisons and drugs and she feared he would cause the death of members of the household.

Portuguese Capital Scene of Outbreak

LISBON, Portugal, Oct. 21.—Many arrests were made in the Portuguese capital late last night, when several groups of opponents of the government attacked police stations and detachments of the republican guard in various parts of the city and also attempted to release the political prisoners confined in jails. They succeeded in setting free one prisoner from the district prison. The authorities eventually suppressed the outbreaks and the government today declares itself master of the situation.

Employing Printers Meet in Convention

Playing printers, members of the United Typothetae of America, met here today in their twenty-seventh annual convention. The afternoon was taken up with reports of committee on apprenticeships and the organization of the International Typographical Association of the United States and Canada.

England to Send Fleet to Great 1915 Gathering

LONDON, Oct. 21.—Great Britain today accepted the invitation from the United States government to send representative vessels of the British navy to the gathering of the international fleet in Hampton Roads early in 1915. The fleet will celebrate the completion of the Panama canal by making a voyage to the Pacific through the Isthmus.

THIS FIRE WHISTLE IS SILENT TINGLER

Toes Feel as Though Drinking Champagne When Alarm Goes

"It was midnight. A gentle tugging in their toes awoke the firemen, and, looking at the fire alarm register, they realized that Oakland's new noiseless fire whistle was calling them."

This will probably serve as a description of a fire in Oakland in the near future, when the noiseless whistle is substituted for the present siren which warns this city of its fires.

Toes tingling, and itchy sensations in their fingers will call workmen to their daily toll with a call louder even than the new sirens on the Key Route ferries. Sea captains on the bay, feeling a yearning sensation knowing that down their spines will creep that rocks are near, with never a sound to warn them. The whistles will blow to the factories as usual, but no one will hear them.

Instead of an ear-splitting blast from a steam whistle, a gentle tingling sensation about the toes may in the near future call workmen to work. The "Noiseless Whistle" has been perfected. E. K. Sturges, manufacturer of automobile accessories is the inventor, claiming the device first for an automobile horn, he saw its adaptability to factory whistles, and, according to Fred Boegle of the Manufacturer's committee, organize a factory in the near future.

The whistle consists of a sounder which blows a note too high for human ears to hear, the sound waves being too short. The vibration, however, is felt. Whistles of this kind have long been experimented with by German scientists, who have discovered that dogs may hear them while human beings cannot. The notes are several octaves higher than any on the known scale, and can only be measured with tuning forks, and by recording the sound waves.

The effect is a gentle vibration, felt at the tips of the fingers, the toes, and in the eyes. It is harmless. The "Noiseless notes" carry further than those of an audible whistle.

Jealousy Inspires a Double Murder

DENVER, Colo., Oct. 20.—Rendered furious by jealousy, William Fannin, a steamfitter, last night killed his wife and her lover, and ended his own existence with poison. When the police forced entrance to the Fannin apartment, they found a letter clutched in the dead husband's hand, which was addressed to his wife. The letter had been written by Mrs. Fannin's divorced husband, C. L. Long, of Hartford, Colo., and informed Mrs. Fannin that he would be in Denver to see her within the immediate future. The police believe that Fannin was insanely jealous of his wife's former husband.

U. S. Army Short Of Enlisted Men

WASHINGTON, Oct. 21.—Shortage of enlisted men is the greatest defect in the army today, according to Major General Thomas H. Barry, commander of the Eastern Department. In his annual report, of the militia in his department he says, the inspections do not show a satisfactory condition. With sufficient material on hand, there is shown a lack of numbers required to comply with the militia law.

Plans are being worked out for the establishment of mobilization camps in all states so as to have them available in case there is a call for a mobilization of the militia.

Police Women Sworn In Among 'The Finest'

SAN FRANCISCO, Oct. 21.—San Francisco's finest now include the fairest three policewomen having been appointed last night by the Police Commissioners.

The coquettes who were sworn in today were assigned to duty immediately and will gain their first practical police experience during the day and excitement of the Fortuna Festival.

'Gentleman Bandit' Gets Little Booty

SAN FRANCISCO, Oct. 21.—Wearing a large storm overcoat and a black mask, a "gentleman bandit" held up Paul Martine of 1748 Hayes street, a morning step from his home early this morning. The victim's pockets. The booty consisted of a few cents and some tobacco.

SULZER KEEPS POLITICIANS GUESSING

Generally Agreed He Will Make Trouble for Tammany.

Believed Former Governor Can Easily Carry His Assembly District.

ALBANY, N. Y., Oct. 21.—What will be the outcome of William Sulzer's race for the Legislature? This was the question foremost today in the minds of the politicians around the capital.

It was generally agreed that he would make a great deal of trouble for the organization in New York. His fire will be directed especially against Aaron J. Levy, who is a candidate for municipal judge, and Alfred B. Smith, the speaker of the Assembly, who seeks to succeed himself.

Even Sulzer's worst political foes virtually concede him victory in his own Assembly district. The question which caused the greatest speculation, however, was how many votes Sulzer would be able to swing for his leadership candidacy in case of his election.

The consensus of opinion was that the next Assembly would be divided among the three parties, and if this prediction is true, Sulzer is able to muster the undivided support of his faction and a few insurgents from other quarters, he would prove a big factor in the race. A majority of the Assembly is required to elect a speaker and only a landslide for one party can prevent a deadlock in Sulzer's wins.

Speculation was rife as to just what Tammany would do in the fight. It is known that all of the undisputed evidence in the impeachment trial is in the hands of the Tammany leaders and it is rumored that this material soon would appear in pamphlet form for general distribution. Sulzer planned to leave here for New York today.

FILES ITEMS OF ALLEGED THEFTS

Anthony Clecak Submits Bill of Particulars in Suit

In a bill of particulars filed today in the Superior Court, Anthony Clecak, who is suing Mickie Clecak as executor of John N. Clecak, for approximately \$15,000 alleged to have been embezzled from the old Gas Kitchen in Thirteenth street during the period between January, 1902, and September 1, 1911, sets forth an itemized account of the funds alleged to have been taken by the defendant while he was acting as confidential manager of the well known restaurant.

Suit for recovery of the money alleged to have been taken was commenced by Anthony Clecak two months ago when Attorneys Chapman & Trefethen, through Thomas H. Barry, commander of the Eastern Department, in his annual report, of the militia in his department he says, the inspections do not show a satisfactory condition. With sufficient material on hand, there is shown a lack of numbers required to comply with the militia law.

Plans are being worked out for the establishment of mobilization camps in all states so as to have them available in case there is a call for a mobilization of the militia.

Great Santa Cruz Forest Fire Subdued

SAN JOSE, Oct. 21.—The greatest fire that ever desolated the Santa Cruz mountains is slowly burning itself out, hedged in by numerous fire trails. State Forester Thomas reports this morning that the southwest and westward pieces of the flames have been stayed, except in a few small places, where the danger is slight. In the burning in stages, the residences of John Smith and Paul Brandt were entirely destroyed, and Paul Kendall's home near Eedles and all its out-buildings were burned.

THREE BATHING PLACES PLANNED

Alameda Expects to Go Into Pleasure Resort Business Heavily.

ALAMEDA, Oct. 21. — Plans for the construction of three large natatoriums are now under way in Alameda. The first of these is the municipal hot salt water, adding to the electric light plant. The latest proposition is for the light works, which supplies the hot water, to take up the bath proposition and operate the resort, with the electric light plant as a joint venture.

Articles of incorporation for the Alameda Yacht and Swimming Bath Company have been filed with the secretary of state. The company is incorporated for \$200,000. F. M. Dodd of Alameda, Wm. E. Geary of Oakland, Charles H. Dodson of the San Francisco Laundry association, A. E. Derby of the U. S. Navy company, and J. J. Morrell, a commission merchant, are the incorporators.

Dodd & Geary recently purchased a large piece of waterfront and beach property, adjoining Washington park, and this will be turned over to the corporation. Plans for the bathing pavilion have been drawn and show a handsome structure fronting a street that will run from Main avenue to the beach, with a bathing tank, with glass roof to the pavilion, is provided for winter and evening bathing. The water will be heated.

The third proposition is that of Z. Z. Dodson, formerly of Houston, Texas, now living in the city. Dodson has been making several initial surveys over the beach that would be adapted to a large swimming bath and amusement park. He has taken the matter up with the city attorney in an endeavor to ascertain the possibility of leasing municipal lands for his purpose.

By request to the chamber of commerce to furnish the Texas with all the available properties for the purpose he has in view has been completed. Dodson is still busy with his inspection.

SALE OF SEATS FOR "PATIENCE" IS HEAVY

UNIVERSITY OF CALIFORNIA, Oct. 21. — W. F. Rochester, who is coaching the Treble Clef society of "Patience," has given October 20 at the Macdonough theater, has had professional experience with the same comedy and is using similar business and grouping for the forthcoming amateur production as he did the time he coached the charge of a musical comedy company ten years ago that included "Patience" in its repertoire, and which toured California.

The advance sale of seats has been heavy. It is at the Co-Operative store, and coupons for reserved seats are also being sold by members of the society. These are exchangeable at Gleason & Moran, Tupper & Macdonough theater and Sherman & Clay.

IS STILL CONSIDERING BILLBOARD ORDINANCE

ALAMEDA, Oct. 21. — Mayor Frank Otis is still undecided as to what course of action he will take in the matter of signing or rejecting the recently adopted amendment to the billboard ordinance, which removes many of the restrictions from the billboard companies and allows them to erect billboards in any section of the city where they can obtain the consent of the owners of vacant property.

The ordinance is a great relief against the billboards and that the people resent the construction of the ugly deadwalls in proximity to their homes. The usual day in which to make up his mind.

SAYS A POLICEMAN DISTURBED HIS PEACE

ALAMEDA, Oct. 21. — Declaring that Policeman Bettencourt was disturbing his peace and that some other policeman should be sent at once, Fred Westphal of 744 Santa Clara avenue, who informed the local officers that his address was 744 Santa Clara avenue, and that the address of the police department was 744 Santa Clara avenue, was a fictitious one, there being no house at that number.

Shortly after the complaint had been filed, Bettencourt rang in from a police telephone on his beat in another part of the city. The police believe that someone called up and used Westphal's name as a hoax.

ALAMEDA PERSONALS

ALAMEDA, Oct. 21. — Mrs. Elton C. Strickler, of Weymouth, Massachusetts, who has been visiting with relatives in this city for some weeks past, left yesterday for her home in the east. Mrs. Strickler was made the guest of honor at a farewell afternoon tea and musical Saturday, by Mrs. Harold Fish at the home of the letter in San Jose avenue.

Mrs. George Fabens, who for the past two months has been the guest of her son-in-law and daughter, Mr. and Mrs. Charles Nelson, of Tahoe, has returned to her home in this city.

Mrs. Anna Noy and Mrs. Dora Weaver, on route east for a visit of six months to the country. Mrs. Wier is secretary of the German Ladies' Relief society, and a large delegation will go to the pier to see the Alameda off and wish them a happy trip.

Mr. and Mrs. John Schnell are spending a honeymoon in the northern part of the state, following their marriage, which was performed at St. Joseph's church by the Rev. T. J. O'Connell. Mrs. Schnell was Miss Edna Hayes, a daughter of Henry C. Hudson of 418 Third avenue.

The marriage of Miss Ada L. Fletcher, Robert M. Blaisdell was solemnized at the Rev. C. H. Hudson's home at the parents of the bride, Mr. and Mrs. Fletcher, 3200 Clement avenue. The ceremony was performed by the Rev. C. H. Hudson, who is spending their honeymoon in the north.

Mr. and Mrs. Blaisdell will entertain with a luncheon at her home in St. Joseph's church, at the home of the bride, Mr. and Mrs. Fletcher, 3200 Clement avenue. The ceremony was performed by the Rev. C. H. Hudson, who is spending their honeymoon in the north.

STILL QUIBBLING OVER FRANCHISE

Telephone Co. and Alameda Council Fail to Reach an Agreement.

ALAMEDA, Oct. 21. — After meeting for several hours last night, the members of the public utilities and finance committee of the city council were unable to reach an agreement with the representatives of the Pacific Telephone and Telegraph company in regard to the franchise, which is now pending. The matter of free phones for the city is the center of the future to agree. The committee, however, will probably file a report with the council at the next committee meeting, October 31, and if the company is not satisfied with the franchise offered, the state railroad commission will be asked to consider the question.

The committee was composed of Councilmen Frank Bartlett, E. B. Bullock and George W. Stewart of the public utilities committee, and Councilman A. L. Morgenstern, Conrad Roth and C. W. MacArthur. Representing the company were Harry Brown, district manager, and John Koordt, local manager.

It has been agreed that the franchise be given for a term of 25 years, with the provision inserted that the instrument could be renewed at any time. Two per cent of the receipts are given the city under a state law.

The councilmen last night made a proposal that 50 free phones be given the city, and five additional every five years. Brown, however, could not agree to this and the discussion ended with the franchise question still undecided.

"The councilmen saw it one way," said Councilman Stewart, "and the company representatives another. Therefore we could not agree. We will make a report in two weeks, however, and if not acceptable the question will probably go to the state railroad commission."

WOMAN'S ROW TOO MUCH FOR JUDGE

ALAMEDA, Oct. 21. — Police Judge Tappan admitted he had been vanquished in a three-cornered physical battle in which his honor, Mrs. Finley and Mrs. McKenzie indulged in the police court this morning. Mrs. McKenzie accused Mrs. Finley with running on her newly laid lawn, and the counter charge was that Mrs. McKenzie had called the Finley children objectionable names.

Judge Tappan attempted to admonish the women, but, as he said afterward, "what a chance." When there is too much noise for Judge Tappan there is some noise, declared Clerk Walter Jacoby. The women called each other names and brandished fists.

"If you don't let me talk I'll lock you both up," he told them. It was no use—the threat was as water on a duck's back.

"Go home both of you, clear out of here, and if I hear of another bit of trouble, you'll both get locked up without trials for 30 days."

The judge released the women on handiwork, giving Mrs. McKenzie a time allowance of ten minutes before starting Mrs. Finley after her.

"Call the next case," he told the clerk.

WELBURN TO TAKE CONTROL TOMORROW

ALAMEDA, Oct. 21. — Nelson G. Welburn, a prominent athlete and clubman of this city, who was recently appointed to the position of secretary of finance of the Associated Industries of California, will take charge of the city tomorrow.

Welburn is well known in this city. He is an officer of the Alameda Tennis club, of the Young Men's Civic league, and is an active participant in local politics. His ability as a dramatic impersonator has brought him much before the public, he having appeared at numbers of local and bay city entertainments in various Shakespearean sketches.

For some years he has been connected with one of the largest dairymen firms on the coast in the capacity of traveler, and on account of the wide range of his acquaintance in the coast cities and towns, was made the choice of the committee. He is a prominent fraternity man of this city.

SCHOOL DIRECTOR WILL FINISH TRIP THURSDAY

ALAMEDA, Oct. 21. — Dr. William Tappan Lum, member of the local board of education and prominent physician, will arrive on the Overland Limited from Chicago Thursday morning. Mrs. Lum received word from her husband today.

During the past month Dr. Lum has been in Europe, where he was taking a special course in advanced surgery. Most of the time was spent in Vienna in one of the largest institutions of medical and surgical learning.

While away Dr. Lum also looked deeply into the methods of education as applied abroad, and his return is anxiously awaited by his fellow members on the local school board.

Dr. Lum will arrive on the early train and will be met at the depot by his wife and family.

TAPPAN IN CHINESE ROBES AN ART STUDY

ALAMEDA, Oct. 21. — Police Judge R. B. Tappan has presented to the local police station as an adornment for the police, a life-sized picture of himself in the Chinese robes of a Chinese official, which he wore at a recent reception at the home of his wife and family.

Tappan, who is a Chinese linguist, has several Chinese costumes that he wears about his apartments and on his yacht, Carria L. He has on several occasions taken young Chinese boys and educated them in the law, and has been known to serve him as valet and conversing with them in their mother tongue.

The picture on the wall in the police station is a portrait of the judge in the Chinese robes of a Chinese official, which he wore at a recent reception at the home of his wife and family.

STATE SUNDAY SCHOOL DELEGATES CONVE

SAN DIEGO, Oct. 21. — With fully 500 delegates in attendance, the state Sunday school convention was called to order in the First Methodist Church this morning by the President, C. H. Ainley of San Diego.

The convention was held in the large lecture hall, and each section immediately began its deliberations. These sessions were of an elementary, secondary and adult, and the topics in each corresponded, dealing with the work of the teachers and pupils in each division of the Sunday schools. Speakers this morning were Dr. R. P. Shepard of St. Louis; Dr. S. M. Queen of San Bernardino; Mrs. H. A. Downing of Los Angeles; and Dr. R. P. Shepard of St. Louis.

The convention will be in session three days.

Returns to Visit Parents Miss H. Wagner 'At Home'

MISS HAZEL WAGNER OF ALAMEDA, HOME AFTER VISIT OF THIRTEEN MONTHS IN AUSTRALIA.

ALAMEDA, Oct. 21. — After an absence of several years, with only a short visit to her parents, Captain and Mrs. H. Wagner, Miss Hazel Wagner has returned from a 13-month trip through Australia and New Zealand. Miss Wagner arrived on the steamer Korea, Sunday, and was met at the wharf in San Francisco by a party of her friends.

She is expected to continue her stay in the antipodes for another year, but an outbreak of smallpox and compulsory vaccination that was not handled as the operation is handled here determined her to come home.

Wagner numbers her friends by the score here and many little affairs are planned for her stay in Alameda. She will be here three weeks, until she will leave for the east to be gone another year.

Miss Wagner is a member of a theatrical company and is rising rapidly in her profession. She was born and raised in Alameda, and received her education here. Her many friends are delighted with the news of her achievements and her visit to Alameda will be made the occasion of a round of receptions and welcomes.

WILL DISCUSS THE WIDENING OF STREET

ALAMEDA, Oct. 21. — The acceptance of Mrs. F. Dechene of the proposition made by the city council to purchase ten feet of her property at the southeast corner of Santa Clara avenue and Webster street for \$1300 will be up for action at a meeting of the city council tonight.

The purchase of the property is to be made for the purpose of widening Santa Clara avenue to the width of the remainder of the thoroughfare. All of the other property owners gave their property for street widening purposes, but Mrs. Dechene has held out against the improvement and has steadfastly refused to donate her property.

She as first asked \$2000 for the property, but upon instructions to the city attorney to prepare a suit in condemnation, has agreed to take the price offered by the city.

MILLS' APPLICATION TO NOT BE CONSIDERED

ALAMEDA, Oct. 21. — The application of E. C. Mills for a license to conduct a saloon at 1205 Lincoln avenue will not be considered by the city council at its session this evening. Two of the councilmen, it is understood, have decided that they cannot attend the meeting this evening and as it is desired to have a full board present when the matter is taken up, no action will be taken tonight.

Mills' saloon at Walnut street and Encinal avenue is still closed and he is awaiting action regarding his application for a new location. The council agreed to allow him to remain in the place for three months and to grant him a license for nine months more for a new place. The latter agreement has not been acted upon as yet.

ISLAND GARDENERS WILL BURY HATCHET

ALAMEDA, Oct. 21. — The controversy in Bay Farm island, between the Mirandas and Cotellas, over the amount of land each will have probably been amicably settled. "John Doe" Miranda, City Engineer I. N. Chapman's agreement to agree to have a surveyor place stakes along the line which Chapman recently surveyed.

The city engineer's stakes, Chapman says, were removed by Miranda and he has about to have a warrant issued for his arrest. Miranda's agreement to replace the stakes, however, will end the matter. Chapman declares that he found that Miranda is claiming an acre and a quarter of Cotella's land.

CORPORAL FLYNN'S CASE UNDER ADVISEMENT

The hearing of testimony in the case of Corporal Flynn, charged with insubordination, was concluded last night before Commissioner of Public Health and Safety Turner, and he now has the case under advisement.

His decision will in all probability be announced some time tomorrow. If Flynn is guilty as charged he may either dismiss him from the force or reduce him to the ranks.

ELECTRIC FEED WIRE

Worcester, Mass., Oct. 21. — William E. Parker, of Harrington, Me., a University of Maine football star, was instantly killed today in a street railway transformer station, when 12,000 volts of electricity passed through his body from a feed wire.

THE TRIBUNE operates the largest Job Printing plant in Alameda County. Good work at reasonable prices. Phone Oakland 214.

STREET MATTERS TO BE DISCUSSED

Alameda Council May Call for Bond Issue of Quarter Million Dollars.

ALAMEDA, Oct. 21. — In requesting the street department of the city to prepare an estimate of the cost of improving various streets throughout Alameda, the large number of figures, it has been found that the street crossings should be figured separately from the remainder of the thoroughfares, as they have never been accepted by the city. It is estimated that the street work will cost \$240,000, exclusive of the crossings. The figures for the crossings have not been compiled as yet.

The council will meet as a committee of the whole next Friday night to consider the matter.

by Mayor Frank Otis. In order to have a working plan for the improvement of the street department was requested to prepare the estimates for improving the streets with a two-inch layer of asphalt. The question which has arisen is as to whether the city is morally obligated to improve the streets, or whether the work should be done by assessing the abutting property owners. The city accepted the latter, with the exception of the crossings, and the latter can be assessed on the property owners. The entire question, however, will be discussed at length Friday evening.

In preparing the figures on crossings a large amount of work has been encountered, each crossing being of a different size and needing individual estimating.

EAGLES ARE AT WORK CONSTRUCTING FLOAT

ALAMEDA, Oct. 21. — Alameda Eagles are busy constructing a beautiful float that will represent the same in the Fourth parade. The work was commenced last Sunday and is being finished tonight. The float is being constructed in a barn in Webb avenue. It was at first decided to construct it in McKinley park, but the publicity was later thought to be too great.

The members of the lodge will hold a truck parade in Woodmen hall, Thursday evening, November 20.

DECLARES LABOR IS OPPOSED TO LIQUOR

UNIVERSITY OF CALIFORNIA, Oct. 21. — Walter MacArthur, editor of the Seaman's Journal, gave yesterday afternoon's address in the course of the liquor problem, and declared that the organized labor, though neutral apparently on the question of temperance, has in spirit been opposed to the liquor traffic. His topic was "The Relation of Labor to the Liquor Problem."

The speaker also emphasized as one reason for the neutral stand of labor on this question the fact that whenever organized labor has been confronted by a crisis, it is the liquor interest that it supports; whereas the "cold water" people have not supported the labor movement in the central way that the liquor traffic has. That it is therefore necessary for the anti-liquor people to back the labor movement more heartily if they wish more support from the labor people, was the deduction made by Mr. MacArthur.

The next lecture in the course will be given next Monday afternoon in 101 California hall, and will be delivered by Dr. J. A. Fry, at 4 o'clock, on "The Ethical Phase of the Liquor Problem."

AGED WOMAN, REPORTED LOST, FOUND IN ALAMEDA

ALAMEDA, Oct. 21. — Mrs. Margaret Sullivan, an aged woman residing at 1779 Franklin street, Oakland, was found wandering on Bay Farm island near Park street yesterday evening and taken in custody. Notification had previously been sent the local police by those of Oakland saying that a woman answering the description of the one found had strayed from her home, Sunday afternoon.

The police of Oakland were notified and M. Sullivan, the son of the aged woman, called for her and took her home. Mrs. Sullivan was unable to give an account of her presence in Alameda.

Reports were received from the Berkeley police that Richard E. Ching, a young man of 24 years, residing with his parents at 1251 Euclid avenue, is among the missing. Ching is described as being five feet 11 inches in height, with brown eyes. He wore a dark suit and overcoat and a fedora hat. He weighs 150 pounds. The local police have been instructed to look out for the young man.

RAILWAY COMPANY IS MAKING PROMISE GOOD

ALAMEDA, Oct. 21. — The work of improving its section of the Webster street railway is being prosecuted by the San Francisco and Oakland Terminal street railway company and will soon be completed. This will give an unbroken road surface between Alameda and Oakland and will be one of the finest highways in the state.

The east half of the road was completed some years ago, and recently the west half was also repaired. The railway was people promised to repair the middle section between their rails when the remainder of the road had been completed and are now making good on the promises. The entire surface of the road will then be of a uniform grade and have a ton dressing of asphaltum.

The work of reclaiming the land on either side of the roadway is about completed and the latter section by the dredging operations in the Oakland harbor.

FOUR TAKE TESTS

UNIVERSITY OF CALIFORNIA, Oct. 21. — Three students of the University participated in the examinations for Rhodes scholarships, which have just been completed. F. T. Waller, W. J. Gwynne and R. E. Stone, W. C. Cook of New York was also a candidate. The examination papers have been forwarded this week to Oxford for comparison.

His Fruit Trees Bloom in the Fall, Tra! La!

ALAMEDA, Oct. 21. — The peculiar weather conditions which have prevailed this year, particularly the hot October days, has served to fool several fruit trees in the rear yard of Mayor Frank Otis' home at Santa Clara avenue and Park street. The trees are now starting to blossom, just as it was the spring, when they usually start to bud.

A cherry tree and a Japanese pear tree are performing the freak of nature and the mayor cannot understand the phenomenon unless it is the weather conditions. The interest, as it may be that the mayor will be able to gather a crop far ahead of all other growers and obtain fabulous prices for fresh cherries and Japanese pears in winter.

ELKS INITIATE NEW "BILLS" IN ALAMEDA

ALAMEDA, Oct. 21. — Initiatory ceremonies at the local lodge of Elks last night with but one exception, a large class of candidates were ushered into the organization. About 200 visiting members from Oakland and Berkeley lodges were present.

Following the initiation a reception was tendered to District Deputy Grand Exalted Ruler Thomas R. Haskins, who is also past president of the Alameda lodge, and a beautifully jeweled pin in the form of a crab was presented. The significance of the nature of the present is from a nick-name inflicted upon Haskins when he was exalted ruler of the local organization.

The evening's program consisted of vaudeville numbers by the members, arranged by Harry Shed, and music by the Elks' new band of twenty pieces, under the direction of Charles Porop.

Speeches by the various local and visiting officials of the lodge were made and the entertainment was followed by a banquet served in the Rathskeller.

Most of the Oakland and Berkeley members came in their automobiles and Santa Clara avenue resembled a Paris boulevard with the autos lining the curbs.

DR. HEGEMANN, SPEAKER

BERKELEY, Oct. 21. — Dr. Werner Hegemann, the German authority on city planning, who is investigating conditions in this city, will be the speaker at the mass meeting to be held Thursday evening at the high school by the Elks' new band of twenty pieces, under the direction of Charles Porop.

Dr. Hegemann is a speaker of local conditions so far as he has investigated them. The address is to be illustrated by vaudeville shows.

SCHOOL BOARD TO MEET

ALAMEDA, Oct. 21. — The regular meeting of the Alameda board of education will be held in the city hall this evening. Matters of routine interest only are scheduled. The mid-term vacation is now on and only business matters relative to improvements and repairs in the schools are expected to come before the meeting.

DECLARES WIFE DANCED TOO MUCH

J. E. West Says Other Men Won Affection That Was Due Him.

In an answer and cross-complaint to his wife's suit for divorce, T. E. West alleges that Dorinda M. West was in the habit of attending dances with other men.

been one of her admirers. West says that his wife attended a dance given by the La Paloma Club in Maple Hall October 8 with Hughes, greatly to his own mental suffering. He also says that his wife went to Moor Park with B. L. Matthews and afterward hugged and kissed him in her apartment.

Leopold Jordan of Berkeley, who has published several books, among them being "The Monocle," has been divorced by his wife, Mary C. Jordan, on the grounds that Mrs. Jordan had obtained an interlocutory decree upon her testimony, part of which was to the effect that her husband had once turned his wrath upon her when he was forced to chop down a cherry tree which he had planted in the way of a sidewalk improvement.

Ida G. Yearley was granted an interlocutory decree from Frank P. Yearley on the grounds that she had been obliged to support him by taking in boarders and giving music lessons. She said that he contributed very little to the expenses of the household.

Madelin Eschelman has commenced suit against J. F. Eschelman, alleging cruelty and neglect, and Charles D. Meyers wants a divorce from Laura Meyers for desertion.

TO ATTEND CONVENTION

ALAMEDA, Oct. 21. — City Auditor F. J. Croll of this city has received an invitation to attend the annual convention of the County Assessors' Association, which is to convene in Jackson, Ariz. county, on November 4. The convention will last for four days. Croll has accepted the invitation.

SCHOOL BOARD TO MEET

ALAMEDA, Oct. 21. — The regular meeting of the Alameda board of education will be held in the city hall this evening. Matters of routine interest only are scheduled. The mid-term vacation is now on and only business matters relative to improvements and repairs in the schools are expected to come before the meeting.

I wear the badge of quality which admits me into every club.

My company is always select, as the men who smoke me are the keen thinkers who are doing things.

I am a masterpiece—a Turkish blend of as pure and wholesome tobacco as ever grew.

Besides, my simple package means more smokes than were I packed in a fancy box for show.

I am FATIMA, the cigarette of the nation.

St. Anthony's New Pastor in Charge

Father Sullivan Begins His Work Here

Distinguished Priest Assumes Pulpit at Local Church

Rev. Father John William Sullivan, newly appointed pastor of St. Anthony's church of East Oakland and the successor to Rev. Father Peter C. Yorke, who has been transferred to St. Peter's church of San Francisco, arrived in this city late yesterday afternoon, and today he assumed his pastoral duties as spiritual leader of the parish, and he will preach his first sermon next Sunday morning. His first mass will be celebrated at 7 o'clock on Sunday. Father Yorke will deliver his final sermon in St.

Within a few days he will leave the parish house, which adjoins the church, on East Sixteenth street near Sixteenth avenue, and he will be permanently located in San Francisco, where he will assume charge of one of the largest churches.

FATHER-SULLIVAN'S WORK.
For the past 12 years Father Sullivan has been an instructor in St. Patrick's Seminary in Menlo Park, where he was highly esteemed as a scholar and a priest. He received his appointment to that institution by Archbishop P. W. Jordan of San Francisco, who ordained him into the priesthood July, 1895, in St. Mary's cathedral of San Francisco.

Rev. Father Sullivan was born in San Francisco in 1870 and was edu-

FATHER JOHN WILLIAM SULLIVAN, WHO SUCCEEDS REV. P. C. YORKE AS PASTOR OF ST. ANTHONY'S CATHOLIC CHURCH.

cated in the old Union-street grammar school and attended the Lowell High school for a number of years. Before graduating he entered Sacred Heart college, from which he graduated with honors. From that institution he registered in St. Charles college, in Maryland, where he won

recognition in a five-year classical course. After completing his work there he enrolled in St. Mary's seminary in Baltimore, where he studied for five years.

RECEIVES DEGREES.
Father Sullivan specialized in church history and scripture in the Catholic university at Washington. Father Sullivan received his master's and bachelor's degrees in St. Mary's seminary, Baltimore, and his licentiate in theology in the Catholic university at Washington.

After his ordination he was stationed at St. Raphael's church, in San Rafael, which was the only pastorate to which he was assigned. He devoted the greater part of his life to the teacher's profession.

There are about 700 families in St. Anthony's church, which means a representation of about 2500 parishioners. For the past 10 years Father Yorke led the congregation, which recently tendered him a farewell reception in St. Anthony's hall.

In speaking of his future plans in the parish, Father Sullivan said in an

interview this morning: "My work here will be to encourage boys who have a desire to study for the church and to keep up the standard of the parochial school, as well as to maintain the religious work of the church. Everything in this parish is well organized and the schools and the church are in splendid condition."

TO CONTINUE WORK.
"I will endeavor to continue with the church movements just as Father Yorke had always conducted them. I shall try to do my work well wherever I am placed."

"I've given practically all my time to helping young men to the priesthood. In fact, I have been interested in young people nearly all my life. They are the people whom the parish is responsible for. We must build a spiritual foundation and inculcate the highest religious ideals in the minds of the boys and girls, who are the citizens of the future."

Father Sullivan will be assisted in the administration of the parish affairs by Father Paul Anderson and Father Peter E. Doyle.

Island Printing Officer Resigns

WASHINGTON, Oct. 21.—Edward E. Gessler, craftsman instructor in the public printing office of the Philippines has been appointed to serve temporarily as director of printing, to succeed John S. Leach, who resigned at the request of Governor-General Harrison.

AN OLD RECIPE TO DARKEN HAIR

Common Garden Sage and Sulphur Makes Streaked, Faded or Gray Hair Dark and Glossy at Once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair.

Nowadays we simply ask at any drug store for "Vivian's" Sage and Sulphur Hair Remedy. You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after a few applications of two your hair becomes beautifully dark, thick and glossy and you look years younger.

JUDGE PRAISES OFFICER'S WORK

Assistant in Probation Department Is Lauded by Donahue.

"Well done, Mr. Probation Officer. A man who can write a report like that is a good probation officer," said Superior Judge Donahue to L. D. Compton when the case of Charles B. Sullivan came up in court this morning. "It is rather a classical report, but gives an insight into the character of the defendant and is very well done indeed."

The compliment was paid Assistant Probation Officer Compton after the hearing of the case had progressed to the point where his honor was able to contrast the report with testimony given by J. S. Sullivan, brother of the defendant. The older brother had taken the witness stand and commenced a story of the defendant's wrong-doing which ended in his arrest for stealing a motorcycle last September. He referred to his younger brother as "the boy" and told the court that he had "looked at things in a practical way" and referred to numerous infractions of discipline by "the boy" in their home.

The report of the assistant probation officer informed the court that the defendant's character was "that of an overgrown boy. Extensive reading of history indicated a mind turned backward. Lacking the faculties for easy enjoyment among young people he has lost confidence in himself; tells gross untruths to conceal trifling unpleasant situations; stole money and then started to run away rather than admit that for two weeks he had been bluffing about having a job when he was actually out of work."

It appeared on taking of further testimony that relative to a prospect of finding employment for the defendant in a machine shop. Judge Donahue continued the case for two weeks until suitable employment can be found. As a recommendation was made in favor of probation, it is probable that the youth, who is 19 years of age, will be given another chance.

DR. KIBBE FINDS HER WARD HAS DISAPPEARED

Beverly Parks, the ward of Dr. Minora Kibbe, 557 Florida street, left her home yesterday afternoon and has not been seen since. Her disappearance was discovered by Dr. Kibbe when she returned home yesterday afternoon and found that her ward had packed most of her clothing into her suitcase and fled. She was seen to take a car toward the business district by neighbors, who say she wore a red sweater, a black dress with yellow trimmings and a soft black felt hat.
